Adam Hartley starts July 1; plans move to Fenton

By Vera Hogan
vhogan@tctimes.com; 810-629-8282

The Fenton Board of Education made it official Monday night approving a contract for new Superintendent Adam Hartley.

Last month, the school board unanimously selected Hartley to serve as the district’s new, permanent superintendent. He will begin his duties by July 1. He was chosen from an initial pool of 27 applicants.

According to Interim Superintendent Doug Busch, Hartley will earn an annual salary of $144,000. He will earn an annuity equal to 5 percent of his salary, as well as medical, dental, vision, life and disability insurance.

Linden man saves choking man’s life at Fenton restaurant

By Grant Cislo
inter@tctimes.com; 810-629-8282

What Nick Owen and his wife MaryJo of Linden thought was going to be a normal night out at the Fenton Hotel ended up being the complete opposite last Friday night.

Nick’s quick thinking and years of experience as a firefighter came together to help save a man, dining with his wife, who was choking on food. In all the chaos, the Owens never did get the name of the man.

MICHIGAN VOTES
WHAT YOUR LEGISLATORS VOTED ON RECENTLY

MichiganVotes.org is a free, non-partisan website created by the Mackinac Center for Public Policy to provide concise, non-partisan, plain-English descriptions of every bill and vote in the Michigan House and Senate. With one click, you can approve or disapprove of key votes by your legislators using the VoteSpotter smart phone app. This report was released Friday, June 3.

House Bill 4578: Authorize school recreation taxes
To add school districts to a law that lets several local governments organize a recreational authority with the power to levy up to one-mill of property tax for swimming pools, recreation centers, public auditoriums, public conference centers and parks. The law is silent on whether the recreational facilities could be school facilities if the bill becomes law, but does require them to be open to the public. It also requires voters in each municipality to approve one of these tax levies.
Passed 37 to 0 in the Senate
Sen. David Robertson (R-Dist. 14) 
Sen. Mike Kowall (R-Dist. 15) 
Sen. Joe Hune (R-Dist. 22) 
Sen. Jim Ananich (D-Dist. 27) 
Sen. Ken Horn (R-Dist. 32) 
Senate Bill 189: Ease certain lawsuit against the state restrictions
To remove certain restrictions on a person who successfully sues the state collecting costs and fees in addition to any court-ordered damage awards. Under current law, the winning plaintiff must prove a state agency’s position was “frivolous” to collect costs and fees.
Passed 34 to 3 in the Senate
Sen. David Robertson (R-Dist. 14) 
Sen. Mike Kowall (R-Dist. 15) 

House Bill 4136: Add civics to high school graduation requirements
To add a civics component to the state high school graduation requirements. Students would be required to pass a test composed of questions identical to some or all of those on the civics portion of the U.S. citizenship naturalization test.
Passed 82 to 27 in the House
Sen. David Robertson (R-Dist. 14) 
Sen. Mike Kowall (R-Dist. 15) 

House Bill 4426: Reduce points for barely speeding
To reduce the drivers license points imposed for exceeding speed limits by 5 mph or less to one point from two points. The current two points would still apply to speeds above 5 mph and not more than 10 mph.
Passed 75 to 34 in the House
Sen. David Robertson (R-Dist. 14) 
Sen. Mike Kowall (R-Dist. 15) 

House Bill 4423: Increase speed limits
To increase speed limits on rural freeways to 75 mph where engineering studies and traffic patterns indicate this is safe. Current speed limits elsewhere would be 70 mph on other freeways, 65 mph on state “trunkline” highways with light traffic, 55 mph on county roads, and 55 mph on unpaved roads except in Oakland and Wayne Counties, where they would be 45 mph. The speed limit on subdivision streets would remain at 25 mph.
Passed 56 to 53 in the House
Sen. David Robertson (R-Dist. 14) 
Sen. Mike Kowall (R-Dist. 15) 

Sen. Joe Hune (R-Dist. 22) 
Sen. Jim Ananich (D-Dist. 27) 
Sen. Ken Horn (R-Dist. 32) 

Senate Bill 292: Disclose unfunded pension liabilities costs in state budget
To require the executive budget the governor must submit each year to include an accounting by department of how much is needed pay the annual “catch up” costs on unfunded liabilities. These liabilities are incurred to pay future pension and post-retirement health benefits promised to retired state employees.
Passed 109 to 0 in the House
Sen. David Robertson (R-Dist. 14) 
Sen. Mike Kowall (R-Dist. 15) 

House Bill 4344: Remove Big 3 protectionism from auto repair shop licensure bill
To remove a provision from a previously passed auto repair shop licensure bill that would have prohibited a repair shop from replacing a major part on a newer vehicle with one not made by the vehicle’s maker. Under this bill, shops would be able to use parts from a different manufacturer if the customer directs this to be done in writing.
Passed 86 to 23 in the House
Sen. David Robertson (R-Dist. 14) 
Sen. Mike Kowall (R-Dist. 15) 

Sen. Ken Horn (R-Dist. 32) 
Sen. Jim Ananich (D-Dist. 27) 
Sen. Joe Hune (R-Dist. 32)
Car shows
rev up this summer

From business-sponsored shows to “Back to the Bricks,” car lovers will enjoy a variety of venues in tri-county area.

By Sally Rummel
news@tctimes.com; 810-629-8282

Michigan’s long history in the automotive industry has created strong roots for a love of cars here in the tri-county area. We’ll always call Detroit “Motor City” and remember Flint in its automotive manufacturing heyday as “Vehicle City.” These roots are evident in the love area residents have for summer car shows, bringing people together who love classic and vintage automobiles and the stories that go along with them.

Nostalgia, pride and camaraderie on a beautiful summer day are just a few of the reasons people enjoy area car shows, which are bountiful in the tri-county area this summer.

The Holly Car Show has become a weekly tradition for the past two decades in downtown Holly, gearing up for a busy summer with its first show on May 11 this year, ending with a Halloween Cruise on Oct. 5.

See CAR SHOWS on 10

Summer vacation

Summertime means vacation time, whether you take to the air for a well-planned dream vacation or hit the road for a casual, more budget-minded getaway.

More than one-third of Americans plan to take a family vacation this summer, according to AAA, with low gas prices motivating travelers to drive at record levels. This travel doesn’t come cheap: the average vacation expense per person in the U.S. is $1,145 or $4,580 for a family of four.

Road trips, visits to national parks and theme parks are the most popular types of vacations families are taking this summer. International destinations and cruises round out the top five most popular vacation options for traveling families.

One thing you can be sure of, there will be crowds wherever you go, even to remote national park locations. Travel experts from USA Today suggest you “zig” when everyone else “zags,” by heading in the opposite direction for a more hassle-free trip.

See VACATION on 13

The 2016 tri-county car show season is here. Last year, the first “Linden on Wheels” show drew 57 classic cars to downtown Linden.

Laura Bellinger (left) and Rachel Welch recently traveled to Machu Picchu in the Andes Mountains in Peru.

You can enjoy a hassle-free vacation if you plan ahead, including flight times, airport security, and having your home ready for your absence.

TRI-COUNTY TIMES
My commencement speech

D o you recall who the commencement speaker was at your high school or college graduation? Me neither.

That’s not surprising. A recent poll indicates that fully 82 percent of all college graduates have no idea who their commencement speaker was or any recollection of what he or she spoke about. Obviously, the King has never been asked to speak at a commencement ceremony. But if I were, this would be my message:

Graduates, giving a commencement address is quite a challenge. Everyone’s needs are different. The faculty would probably like to hear something of substance. The parents would like something sentimental. And if you students would like something...well, brief.

I will try to accommodate each of you. What you are going to find as you go forward in your life is that each passing year will be forced to make more and more choices regarding how you spend your future — your time. In your life: the people who helped you arrive at this milestone day are different. The faculty would probably like to hear something of substance. The parents would like something sentimental. And if you students would like something...well, brief.

To the graduates: I will try to accommodate each of you.

To your family and friends: I know all about the gangs they formed in zoos where they have to be killed, because they are so proud of those flags maybe they should give up their flags from Mexico and other countries. If they are so proud of those flags from Mexico and other countries. Why do cat people think it’s acceptable to let their animals roam the neighborhood?

DEAR NEIGHBOR ON the south side of town — please keep your two black cats (pink collar and green collar) in your house and out of my yard. Why do cat people think it’s acceptable to let their animals roam the neighborhood?

SO NOW THE demonstrators in California burn American flags and wave flags from Mexico and other countries. If they are so proud of those flags maybe they should give up their flags from Mexico and other countries. I was raised in California and know all about the gangs they formed and bad things happened to all of the WMDs we heard about prior to our invasion of Iraq. Why did we invade Iraq in the first place?

THE ONLY WAY Fenton Township is going to get rid of Bonnie Mathis and her ilk is by a recall. She is running unopposed again. Seriously?

HEY, BONNIE, YOUR hands aren’t tied. You are running on them. All we the people ask is that you do your job.

BIG THANK YOU to Kurt at the Fenton Post Office. My husband and I were there on Tuesday. On Wednesday, we received a handwritten note in the mail from Kurt asking if my husband had lost a hearing aid because he had heard a noise. I called to let Kurt know it didn’t belong to my husband but this type of small town concern is so wonderful. You are the best.

I WASN’T AWARE there is a time limit on the Fenton Township board meetings. Two meetings in the last two months, the public speaking time has been cut short. Rest assured, I listened for over an hour and then were told we only had a few minutes to be heard. You work for us. Make time.

THE AUGUST BALLOT includes a proposal for a .25 mil increase to GISD. If passed, it generates an extra $2.3 million annually and an extra $46 million over the next 20 years. In addition to education, funds can also be used for ‘operating purposes.’ Voters look at their budget before voting.

CLINTON VILKIN-THUHN (1947) 1. a. professional liar lacking morals b. commonly associated with power hungry, egomanical politician. 2. Failed to get what he wanted for 38 years. If he had gotten it, we could have avoided the entire Iraq war.

Hey, Bonnie, you’ve got some problems. Fenton Township is going to get rid of you unopposed. Seriously? The only way we can get rid of you is with a recall. All we the people ask is that you do your job.

Township considers repeal of ordinances

Obsolete laws regulating mobile homes, wetlands and inspections could be repealed

By Hannah Ball
hbball@tctimes.com, 810-433-6792
Fenton Twp. — The board of trustees held the first reading of a proposed ordinance on Monday to repeal five obsolete ordinances.

The first ordinance, which deals with mobile homes, was adopted in 1977, but Tom Broecker, operations manager and deputy clerk said a subsequent law in 1987 made this ordinance obsolete. “While there are some things we might be able to do with the ordinance and move forward, the original ordinance as it is, is truly obsolete,” he said.

The second ordinance is the Fenton Township Wetland Protection Ordinance. Broecker said this situation is similar to the mobile home ordinance. “With the wetland protection portion of the Natural Resources and Environmental Protection Act put in place 22 years ago, our ordinance is pretty much unenforceable,” he said.

“There was some hesitance to repeal the ordinance because it would seem like the township doesn’t care about environmental issues, but we’ve found in the last 20 years our ordinance doesn’t apply to anything,” Broecker explained that the state regulates the township’s wetlands and there’s no need for the township’s current ordinance.

The last three ordinances deal with the possibility of making the township enforce the agency for plumbing, mechanical and electrical inspections. The township would conduct inspections out of its office under the presumption that it would create revenue for the township. This was recommended by a previous building inspector.

Broecker said they now have a different building inspector and the rules for inspections have changed. “They are discouraging local units from doing the enforcement themselves,” Broecker said, adding that they’re better off using state inspectors and being consistent.

“Those ordinances, while they we never really valid because we never took the second step of the action to become the enforcing agency, they were still on the books,” he said.

The second reading and vote for this ordinance that would repeal these five ordinances will be at the next township meeting on Monday, June 20.

NEWS BRIEFS

GDL Summer Reading Challenge set
Kids and adults are encouraged to “get in the game” and participate in the Genesee County District Library’s Summer Reading Challenge. “There are a lot of statistics out there about how reading helps to prevent the summer slide, but it’s so much more than just a preventative measure,” said Eileen Button, community relations manager for GDL. “It’s an opportunity for kids to explore their interests, visit another world, step into another’s shoes, or even explore the dark side. Kids and adults who love to read have richer lives, simple as that.” Button added. The challenge, of course, is to read great books between June 11 and Aug. 6. Participants should pick up a log sheet and sign-up prize at their favorite library branch, and then read great books to collect their halfway prize. Participants should then read more books and at the end of the challenge period, they can select their prize book. According to the GDL press release, “Visit your library each week to put your name in a drawing for bowling parties, Kindles, Amazon gift certificates and tickets to Longway Planetarium, NCG Theaters, Michigan Adventure, Cedar Point and Tigers games. To support the local economy the Genesee County businesses, which also will be included in the drawings. For more information, visit www.thegdl.org.

**Rock garden, colorful plants adorn city hall grounds**

By Hannah Ball
hbali@tctimes.com; 810-433-8792

Fenton — There might have been fewer people compared to previous years, but there was plenty of beauty at this year’s Community Planting Day in Fenton.

On Saturday morning, approximately a dozen volunteers from the Fenton City Council and Beautification Committee planted flowers around city hall.

“We’re hoping that when this is all done, we’re going to make it more beautiful,” said Dawn Overmeyer, chair of Keep Fenton Beautiful.

They bought and planted more perennial flowers this year so the flowers will bloom in the coming years and they can save money on future expenses. All the flowers were bought from Gerych’s Distinctive Flowers & Gifts.

Pink geraniums, Graceful Grasses Vertigo, and other plants and flowers now grow around the building, replacing the old plants and weeds.

Volunteers transformed the south side of city hall, which had been full of dry dirt and sparse grass, to a mulch-filled rock garden with pink and green plants.

The planting took about an hour and half. “I think it went well,” Overmeyer said. “Volunteers were great.”

**SAVES**

Continued from Front Page

“I’ve been in the business for a while. You could see on her face that something was wrong,” said Nick, 53, who has been a firefighter for 21 years and is a lieutenant with the Southfield Fire Department. Nick noticed the man’s wife stand up next to him and began to yell out “He’s choking!” The man was choking! He’s choking!” The man was really choking then got in between the man and his wife and his husband and looked down at him. He knew immediately the man was in danger.

“I looked at him again just to make sure and I could tell he was turning a bit blue and then I knew we were in trouble,” said Nick. “At that point I just got right behind the chair and then I went into action.”

“I just started praying, I just was like ‘sweet Jesus help him to be OK’ and then I started saying the ‘Our Father,’” said MaryJo, who was witnessing the event.

Nick said the process of performing the Heimlich maneuver, which is known as abdominal thrusts, took more than a minute.

The first couple of thrusts I wasn’t getting anywhere, I could tell I wasn’t getting anywhere so I had to go deep,” said Nick. “I probably did it about 10 times and I just couldn’t believe it.”

The man was conscious at first, but eventually became unconscious. Nick said the process of performing the Heimlich maneuver, which is known as abdominal thrusts took more than a minute.

The first couple of thrusts I wasn’t getting anywhere, I could tell I wasn’t getting anywhere so I had to go deep,” said Nick. “I probably did it about 10 times and then some one grabbed the chair and then we both went to the ground.”

This is the point where the man went unconscious. Once Nick and the man were down on the floor, the abdominal thrusts were performed at least 20 more times, but nothing would come out. Nick said that after about 15 to 20 more tries, the piece of steak finally shot out from the man’s throat.

Nick recommended to the man’s wife that she take him to seek medical attention to make sure everything was OK, which she agreed to.
Fenton Village Players will perform ‘Much Ado About Nothing’ outdoors

By Hannah Ball
hb@tctimes.com; 810-433-6792

The community is invited to a free outdoor performance of Shakespeare’s “Much Ado About Nothing” this weekend.

On Saturday and Sunday, members of the Fenton Village Players will adorn dresses and coats to perform at the Linden gazebo, Crapo Park gazebo in Holly and the Fenton gazebo.

Director of the play David Coffey said, “It’s very relevant to our times.”

“Much Ado About Nothing,” one of William Shakespeare’s comedies, is a classic example of romance, love, betrayal, and social customs.

The play follows two couples, Beatrice and Benedick, and Claudio and Hero. Benedick returns from war to find out that his former lover, Beatrice, has changed. Benedick's return begins a scheme to sabotage Claudio and Hero's relationship.

Meanwhile the villain of the story, Don John, tries to sabotage Claudio and Hero’s relationship. His scheme begins with a false accusation of adultery, and Claudio begins to doubt his friend's loyalty.

The play has a two-hour run time with a 15-minute intermission.

On Saturday, the cast will perform at 12 p.m. at the Linden gazebo and at 7 p.m. at the Crapo Park gazebo in Holly. On Sunday, they will perform at 2 p.m. at the Fenton gazebo.

In case of rain, the performance will be held at the Fenton Villagers Playhouse at 14197 Torrey Rd. Donations for Fenton Village Players will be accepted.

Patrons are asked to bring their own lawn chairs and picnic lunches.

“In my spare time I enjoy spending time with my family visiting northern Michigan, and walking our golden retriever, Gus,” said Hartley. “We are selling our house in Flushing and moving to the Fenton area,” he added.

Although his official start date isn’t until July 1, Hartley said, “I will continue to meet with people, attend events leading up to that date.

I am excited to begin collaborating with the school community to provide a positive experience for both the students and the adults as we create a true culture of learning in Fenton,” Hartley said.

“Leading a school district has been my goal since I became a teacher years ago and to have this opportunity in Fenton is certainly a dream come true.

“We have been impressed with every aspect of the school community as I visit buildings and meet with people,” he added. “I am looking forward to getting to work on July 1st and preparing for an outstanding 2016-2017 school year.”

As he prepares to leave his duties as interim superintendent and continue his job as executive director of finance and personnel, Busch said, “I am proud of the work that we accomplished during the 2015-16 school year.

“We have a great group of students and an excellent staff. We are looking forward to welcoming Dr. Hartley to our district as the new superintendent,” Busch said.
Four straight titles for Linden baseball

Eagles combine strong pitching with offense to win district championship

By David Troppens
dtroppens@tctimes.com
Lake Fenton — What was the story of the day for the Linden varsity baseball team on Saturday? Take your pick.

Was it Jack Shore’s complete-game 12-strike out performance against Powers Catholic in the Eagles’ 4-0 district semifinal victory? Was it the no-hitter tossed by Lucas Marshall in the Eagles’ 6-0 district title victory against Goodrich hours later? Or was it Ryker Rivera’s effort to get four stitches in one hour later? Or was it Ryker Rivera’s effort to get four stitches in one.

Sheyachich had one of her best pitching performances of her entire softball career in Lake Fenton’s Division 3 district championship efforts on Saturday at Lake Fenton High School.

She started out the day perfect, tossing a five-inning perfect-game no-hitter against Flint Powers in the Blue Devils’ 10-0 district semifinal victory. She followed that contest up by leading the Blue Devils by their biggest rivals, the Goodrich Martians, tossing a six-hit shutout in Lake Fenton’s District 3 district title win.

Sheyachich seemed a little puzzled about her effectiveness. “I don’t know why I was hitting my spots,” Sheyachich said. “That’s pretty odd for me, I guess. But me and my catcher (Erin Ezell) have been working on hitting spots better and getting a better opening where her glove is and that’s been helping a lot. It helps me as a pitcher to hit my spots.”

Lake Fenton pitcher Sydney Sheyachich tossed two shutouts on Saturday.

Linden celebrates just seconds after they won their fourth straight district crown at Lake Fenton High School on Saturday.

“Tossing a six-hit shutout in Lake Fenton’s 6-0 district title win. Sheyachich seemed a little puzzled about her effectiveness. “I don’t know why I was hitting my spots.” Sheyachich said. “That’s pretty odd for me, I guess. But me and my catcher (Erin Ezell) have been working on hitting spots better and getting a better opening where her glove is and that’s been helping a lot. It helps me as a pitcher to hit my spots.”

Lee caps prep career with state title

Other area D1 athletes have strong state meets

By David Troppens

Lake Fenton’s 3,200 meter Division 1 state champion Jake Lee (right) hugs Fenton varsity boys coach Anthony McMillan after Lee won the 3,200 on Saturday.

Fenton senior made his dream come true.

In his last race of his prep career, the Fenton senior made his dream come true.

Lee captured the Division 1 state championship in the 3,200 meter run at Hudsonville High School on Saturday.

He earned the title with a Fenton school record time of 9:07.72, almost three seconds ahead of second-place Isaac Harding from Rockford. It broke the old school record recorded by Chris Gilbert in 1977.

“It’s an amazing feeling,” Lee said. “It’s been a goal of mine since I started in high school to win a state championship. The goal was a bit unrealistic at first because I had to compete against (Grand Blanc’s) Grant Fisher, but since he graduated that left the door wide open for someone to take it. I am glad it was me.”

Lake Fenton’s Alia Frederick earned All-State honors in the 300 meter hurdles, taking sixth with a time of 45.68 seconds.

Lake Fenton’s Di Bourdeau and Thomas Mueller placed seventh with a time of 8:10.31.

Frederick, LF 3,200 relay earn D2 all-state honors

By David Troppens

The tri-county area had participants in two events come home with All-State honors at the Division 2 state track and field meet on Saturday.

Linden’s Alia Frederick posted her personal-best time in the 300 meter hurdles, taking sixth with a time of 45.68 seconds.

Lake Fenton’s boys also had an All-State performance with the boys 3,200 run. Isaac Golson, Jacob Fletcher, Elijah Bourdeau and Thomas Mueller placed seventh with a time of 8:10.31.

**Record-breaking day for Holly tennis at D2 state meet**

By David Troppens
dttroppens@tctimes.com; 810-433-6789

Holly — It’s a program that has had many special moments in its history. But last weekend’s Division 2 state tournament held at Holly High School may have been the greatest day ever for the program that has been Holly High School’s most consistent and dominant program since it started.

The Holly Bronchos broke several school records at the D2 tourney, finishing sixth in the final team standings with a school-record point total of 19 points. Another record involved the doubles flights. All four made it to the second day’s semifinals.

The majority of the Holly team’s team points were earned on the courts. Megan Lesperance and Nicole Johnson advanced to the title match, making school history as well.

Lake Fenton — The Lake Fenton girls varsity soccer team defeated Ovid-Elsie this past weekend with a score of 4-0 to win the District 3 title on Saturday.

The Blue Devils have been on a roll this playoffs outscoring their opponents 18-0 in just three games so far. There has been no answer thus far for the Blue Devils high-powered offense.

Saturday’s game started off pretty evenly matched with the score being tied until the 28-minute mark. That’s when Lake Fenton netted its first of four goals. The goal was scored by freshman Hannah Hellebuyck and assisted by sophomore Julie Craig. The next two goals were scored by junior Ashlyn Skidmore. One came at the end of the first half and the other came halfway through the second half.

The prior week the Blue Devils qualified for the regional meet by placing second in district action at Frankenmuth’s The Fortress. The Blue Devils shot a 334, tying first-place Powers. However, the Chargers earned the title due to having a better fifth-man score.

Tomczyk was the district champion, carding a 74. He was followed by Allor with an 80, Rickert with an 88 and Evan Pibble with a 91.

**Fenton repeats as district champs, 5-0**

By David Troppens
dttroppens@tctimes.com; 810-433-6789

Fenton — Margaret Berry has been on the Fenton varsity girls soccer team for two years. She already has experienced two district titles.

Berry scored two goals in the Tigers’ 5-0 victory against Kearsley in the Division 2 district title game held at Fenton High School on Friday night. The win placed the Tigers in the regional semifinal at Brandon High School on Tuesday against Brandon. For results of the game, go to tctimes.com.

“It’s an amazing feeling to see us win districts again, especially with this group of girls,” Berry said.

**Linden softball loses tough 1-0 verdict in district semis**

Linden’s Alexa Marsh allowed just one run, but the Eagles’ offense wasn’t able to score against Goodrich, resulting in the tough loss. The only run of the game was scored in Goodrich’s sixth on an RBI-single by Emily Stambaugh, plating Bailee Losee.

The Eagles (24-13) had four hits. Kim Freitas, Liz Ralowski, Megan Klaviter and Ashley Bertschy had a hit each.

Marsh scattered eight hits and two walks.

**Blue Devils capture district crown**

**Defeat Ovid-Elsie in title contest, 4-0**

By Grant Cislo
dttroppens@tctimes.com

Lake Fenton — The Lake Fenton girls varsity soccer team defeated Ovid-Elsie this past weekend with a score of 4-0 to win the District 3 title on Saturday.

Lake Fenton’s boys golf team placed eighth at the Division 3 regional held at Atlas Valley Country Club, missing a state trip by five places.

Lake Fenton shot a 366. Andrew Al- lor led the Blue Devils with a 90 while Evan Priddle shot a 91. Jack Reece Mill er carded a 92 and Brendan Rickert shot a 93. Mathew Tomczyk shot a 96. Of the five regional starters, only Rickert is a senior.

CAR SHOWS

**Continued from Page 3**

The car show is open from 5 to 8 p.m., and Saginaw and Battle Alley streets are closed at 4 p.m. to give participants an opportunity to find a place to park their cars. Visitors to downtown Holly will enjoy classic cars, hot rods, oldies music, prizes and raffles. Bob Allsop, village councilman, has been running the show with John Lobo for the past seven years, with the help of their wives, Laurie Allsop and Lisa Lobo. Admission is free.

Major sponsors are Premier Auto Truck & Body in Clarkston and Bars Leak in Holly, as well as Red Devil Restaurant and Holly Auto Parts.

By far, the largest car show in Genesee County is “Back to the Bricks” in Flint, now its 12th year. Set for Aug. 16-19, this event will draw thousands of vehicles and visitors to the streets of Flint for classic cars, live entertainment, music, food, displays and more.

Linden and Fenton will host “Tune Up Party Week” events the week prior to “Back to the Bricks,” offering local residents an opportunity to celebrate their love of the automobile in their own hometowns.

Linden will rev up its Tune-up Party on Wednesday, Aug. 10, from 4 to 8 p.m. downtown. Fenton’s Tune-up Party will bring a party to the downtown streets on Thursday, Aug. 11 along with other events, including the Farmers Market and Concert in the Park. Downtown streets will be closed to traffic in mid-afternoon, and then the event will run until dark. Other car shows this summer include:

- **Fenton**
  - Vic Caneeve Chevrolet Car Show is on the third Thursday of each month from May through July, from 3 to 8 p.m. The next car show is June 16 and July 21. Followed by Tune-up Party on Aug. 11. Bring your hot rod, antique or muscle car and enjoy free refreshments, drawings and prizes.
  - **Mega Coney Island** has its car show on the third Tuesday of each month, from 5 to 8 p.m., with upcoming dates June 28, Aug. 23 and Sept. 20 with 50/50 raffles, 2-for-1 cones for drivers and DJ Bob Steele.
  - **Boston’s Gourmet Pizza Summer Cruise** is on the fourth Sundays, including June 25, July 26 and Aug. 23, with DJ Bob Steele.
  - **Back to the Bricks Tune Up Party on Thursday, Aug. 11.**

- **Linden**
  - **Friday Night Car Shows** are held from June 3 to Aug. 26 at the public parking lot downtown behind Thimbleberry Antiques, from 5 to 8 p.m.
  - **Back to the Bricks Tune Up Party on Wednesday, Aug. 10, from 4 to 8 p.m.**

- **Holly**
  - **Cruise to Battle Alley/Holly Car Show** transforms downtown Holly into a huge party every Wednesday from May until October, from 5 to 8 p.m.
  - **Poplar Michigan car shows:**
    - 41st annual St. Ignace Car Show – June 22-25, one of the largest all-make, all-model shows in the U.S.
    - **Woodward Dream Cruise** – Saturday, Aug. 20, 9 a.m. to 9 p.m., on a 16-mile stretch of Woodward Avenue in Detroit’s suburbs of Berkley, Ferndale, Huntington Woods, Pleasant Ridge, etc. It’s the world’s largest one-day celebration of the automobile.
    - **Frankenmuth Auto Fest** – Sept. 9-11, at Heritage Park on Weiss Street.

To find more car show dates, visit [www.carshowfinder.org/states/michigan-car-shows.htm](http://www.carshowfinder.org/states/michigan-car-shows.htm)

**HOT LINE CONTINUED**

IF YOU WANT to have chickens, goats and other farm animals then live in the country. This is why we live in the city.

FOR SEVERAL YEARS, I have had a wooden hand-painted pig with an arrow mounted on a metal pole pounded into the ground on Crosby Road. It was stolen this past week. Seems you can’t have anything fun anymore.

WITH CLINTON IN the White House, get ready for a flood of illegals arriving unlocked and put on welfare, drivers licenses, free schooling and free medical. Of course, we will pay for this.

THANK YOU TO all those involved in the Memorial Day parade and service at Oakwood Cemetery. What a beautiful and fitting tribute to our fallen soldiers. The speeches, poems, and the Fenton High School band’s patriotic tunes were very moving and touched my heart. Well done.
Job Openings

**Help Wanted**

ADOPT A PET

We are looking for part-time year long kennel staff. Applicants should be hard-working and team oriented. We need someone to be able to work all shifts and some weekends. Perfect job for someone who loves animals and helping animals find their forever homes.

Kennel responsibilities include cleaning, handling animals, feeding, watering, and interacting with public. Must be able to lift 50 lbs. routinely. Send resumes to jodydogger@gmail.com. Or drop resumes at 13575 Fenton Rd. Fenton, MI 48430.

**FENTON CAR WASH**

now hiring. All positions available, top pay for the right applicant, full and part time positions available. Apply today contact Rob at 248-763-4200.

**FENTON TRADING POST**

is looking for someone to assist in the sale of utility trailers. No experience necessary will train. Casual atmosphere 810-750-9971.

**HORSE CARE**

Horse rescue farm needs full-time employee to help care for 40+ horses. Days are Tuesday thru Saturday, day starts at 10am. $100 per day if qualified. Day tends to be a 5 to 8 hour day depending on what is needed, weather, and how fast you work. Start immediately. Requirements: Basic equestrian knowledge. Blanket and unblanketing as needed. Ability to operate equipment (tractor, spreader, brush hog, drag for pastures). Clean barns, run in sheds, water troughs. Feed, water, hay, body check horses for injuries. Hold for vet and farrier. 5+ years of experience. Ideal if you grew up with cows and or horses. Ability to do minor or major repairs a plus. Please respond to hlevin267@gmail.com.

This report covers the drinking water quality for the Village of Holly for the 2015 calendar year. This information is a snapshot of the quality of the water that we provided to you in 2015. Included are details about where your water comes from, what it contains, and how it compares to Environmental Protection Agency (EPA) and state standards. Your water comes from four (4) wells located on the West side of town. Wells are approximately 210 feet deep and are embedded into sandstone (Marshall Formation). The State performed an assessment of our source water in 2003. The suitability rating is on a seven-tiered scale from “very-low” to “very-high” based on geologic sensitivity, well construction, water chemistry and contamination sources. The suitability of our source is moderately high.

Several existing sources of contamination exist in the Holly Wellhead Protection area:

• Leaking Underground Storage Tank (LUST) sites are located at Adelphian Academy, 820 Academy Road; Village of Holly, 201 Elm Street; Holly Area Schools, 800 Elm Street; Fresh Air Society, 4236 Grange Hall Road; Holly Volunteer Ambulance, 504 Maple Street; Mobil Oil, 15241 North Holly Road; Muffler Man of Holly, 944 North Saginaw; Wilkinson’s Auto Repair, 402 North Saginaw; Mabel O. Barnes Trust, 1125 North Saginaw Street; Holly Gas Company Inc., 114 North Saginaw; Beacon & Bridge Market, 820 North Saginaw; and Larry Winklemann, 220 Elm Street.

• Four Part 201 sites of environmental contamination include Delta Tube and Fabrication Corporation, 4149 Grange Hall Road; Carl Spencer, 422 North Saginaw Street; Larry Winklemann, 220 Elm Street; and E and S Trucking, 15391 Fish Lake Road.

Potential sources of contamination include Underground Storage Tank (UST) sites, Aboveground Storage Tank (AST) sites, and groundwater discharge permit sites. Abandoned wells provide a direct conduit for surface run-off and contaminants to easily reach the groundwater and may pose a potential problem. To ensure that these wells are not a potential threat, they should be searched and properly plugged.

We are making efforts to protect our sources by participating in the Wellhead Protection Program.

If you would like to know more about the SWAP report please contact Brian Klaassen at 248-634-2202, or via email at bklaassen@hollyvillage.org.

• Contaminants and their presence in water: Drinking Water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA’s Safe Drinking Water Hotline (800-426-4791).

• Vulnerability of sub-populations: Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons, as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers.

• Sources of drinking water: The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. Our water comes from wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

• Contaminants that may be present in source water include:
  - Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
  - Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
  - Pesticides and herbicides, which may come from a variety of sources such as agriculture and residential uses.
  - Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.
  - Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can come from gas stations, urban storm water runoff, and septic systems.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration regulations establish limits for contaminants in bottled water which provide the same protection for public health.

Terms and abbreviations used below: 
- Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
- Maximum Residual Disinfectant Level (MRDL): The means of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
- Maximum Residual Disinfectant Level Goal (MRDLG): The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
- N/A: Not applicable.
- ND: Not detectable at testing limit.
- Special Monitoring and Knowledge of Contaminant**: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements that a water system must follow.

- * Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can come from gas stations, urban storm water runoff, and septic systems.

12 Wednesday, June 8, 2016 MIDWEST TIMES www.tctimes.com

The table below lists all the drinking water contaminants that we detected during the 2015 calendar year. The presence of these contaminants in the water does not necessarily indicate that the water poses a health risk. Unless otherwise noted, the data presented in this table is from testing done January 1 – December 31, 2015. The State allows us to monitor for certain contaminants less than once per year because the concentrations of these contaminants are not expected to vary significantly from year to year. All of the data is representative of the water quality, but some are more than one year old.

**Special Monitoring and Knowledge of Contaminant**

- **Lead** (ppb): 15 | 0 | 4 | 2014 | 6 | No | 0.05 ppm |
- **Copper** (ppb): 1.3 | 1 | 1 | 2014 | 6 | No | 0.05 ppm |

*Many of these levels are above the detection limit, but below the action level.

- While your drinking water meets EPA’s standard for arsenic, it does contain low levels of arsenic. EPA’s standard balances the current understanding of arsenic’s possible health effects against the costs of removing arsenic from drinking water. EPA continues to research the health effects of low-level arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

- Unregulated contaminants are those for which EPA has not established drinking water standards. Monitoring helps EPA to determine where certain contaminants occur and whether it needs to regulate those contaminants.

*** Information about lead: If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and items associated with service lines and home plumbing. The Village of Holly is responsible for providing high quality drinking water, but cannot control the variety of materials in plumbing components. When your water has been sitting for several hours, it can get the water in the household piping systems. Exposing children to lead exposure for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and how you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.

We will update this report annually and will keep you informed of any problems that may occur throughout the year as they happen. On July 1, 2016 copies of this report will be available at the Village of Holly Municipal Offices located at 300 East St., Holly, MI, office hours Monday through Friday 8:00 a.m. to 2:00 p.m. The Department of Public Works Offices can also provide copies; their office is located at 201 Elm St Holly MI 48442, office hours Monday through Thursday, 7:30 a.m. to 5:30 p.m. The Department of Public Works Offices can also provide copies; their office is located at 201 Elm St Holly MI 48442, office hours Monday through Thursday, 7:30 a.m. to 4:30 p.m. This report will not be sent to you.

We invite public participation in decisions that affect drinking water quality, Village of Holly Council meeting the 2nd and 4th Tuesday of the month at the Council Chambers at 3000 East St. Holly MI 48442. For more information about your water, or the contents of this report, contact Brian Klaassen at 248-634-2202, or via email at bklaassen@hollyvillage.org. For more information about safe drinking water, visit the U.S. Environmental Protection Agency at www.epa.gov/safewater/.
Andrew Perkins directs the Fenton Community Orchestra as they perform the National Anthem at Southern Lakes Park & Recreation’s first Concert in the Park event on Friday.

CONCERT

Continued from Front Page

ton High School Jazz Band and Fenton Community Orchestra made for a classy start to the series, organized and run annually by Southern Lakes Park & Recreation.

“Thousands of people will come out throughout the season to support our Concert in the Park series and each year it appears to grow,” said Nancy Muffley, SLPR program administrator and event planner.

People brought their kids and dogs to sit on the grass, on blankets or in chairs for about an hour and half to listen to the two bands perform.

“It was an incredible concert. We were so happy to partner with the Fenton Community Orchestra and the FHS Jazz Band,” Nancy Muffley SLPR program administrator and event planner.

and there was a recognizable feeling of shared excitement when the Fenton Community Orchestra played music from the “Star Wars” films. People listened attentively to both bands, basking in the nice weather.

The remainder of the summer concert series will have performances from a variety of bands from ‘60s rock to the Blues, to country music.

“Our concerts in Fenton will run on Thursdays throughout the summer months until August 25,” Muffley said. “All concerts are from 7 to 8:30 p.m. with the exception of the Back to the Bricks date of August 11. That concert will be from 6:30 to 8 p.m.”

2016 FENTON SUMMER CONCERT SERIES

Aug. 11: Billy Mack & The Juke Joint
Aug. 18: Eye96
Aug. 25: TJ Thomas & The Kentucky Strait

VACATION

Continued from Page 3

Red-eye flights, road trips and off-season vacations will take the stress out of traveling this summer.

If you’re planning a trip to Disney or other theme parks, you may want to consider going in September, when you’ll experience much lighter crowds, and discounts programs. If an international trip is in your plans, you’ll enjoy favorable exchange range and discount prices this summer.

With June, July and August being the busiest travel months of the year, avoid flying on the busiest days of the week, which tend to be Fridays and Mondays — the start of the weekend and the start of the business week for professionals, respectively. Travelers will likely notice that ticket prices increase Thursday at noon, and Sunday flights are among the most expensive in general.

This is the year that many travel companies and airlines are devaluing their point systems, so travel experts from USA Today also suggest you use those miles this year rather than accumulate them. If you are traveling by air, think ahead and consider signing up for TSA Pre-Check ($85 for five years), which gives low-risk flying passengers an opportunity to bypass long security lines and procedures, by enrolling ahead of time. For more information, visit: https://www.tsa.gov/tsa-precheck/

To get to your destination on time, make sure you get to the airport early, at least two to three hours early this summer, to account for extra security.

For summer road trips, make sure to map your trip ahead of time, so you can make the best use of your time and find appropriate accommodations for your family. If you enjoy good food rather than rest stops for your family meals, map out authentic regional dishes and places to enjoy them with roadfood.com.

Some of your most important trip planning begins well before you leave for the airport or pack the car. Arrange for mail pick-up, unplug your electronics, check to make sure your sump pump is working, keep your air conditioning on (set at high temperature, but keep air circulating), plan for flowers to be watered by neighbor or buy a soaker hose and put lights on timers.

Check the sidebar above about how to handle your finances while you’re on vacation.

MONEY MATTERS: FOR STRESS-FREE VACATION:

• Take a backup form of payment with you, such as an extra credit card in case of an emergency.
• Alert your bank if you are leaving for an international destination, so a travel alert can be placed on your card. According to Margaret Cady, vice president of retail banking at The State Bank, it’s not necessary to do so if you’re traveling in the U.S.
• Make sure your bank has your updated cell phone number on file, in case they need to reach you.
• Take advantage of a Travel Card, a modern-day version of traveler’s checks. “These are an economical way to take money on vacation,” said Cady. “They are accepted internationally and limit exposure if your debit/credit card is lost or stolen.
• Sign up for Mobile or Online Banking so you can monitor your account activity while you are away.

SOURCE: The State Bank
Aries (March 21 to April 19)
Lots of possibilities begin to open up by midweek. Some seem more appealing than others. But wait for more facts to emerge later on before you consider which to choose.

Taurus (April 20 to May 20)
Bravo to the determined Bovine. While others might give up, you continue to search for answers. Expect your Taurean tenacity to begin paying off by week’s end.

Gemini (May 21 to June 20)
You might want to consider stepping back from the task at hand for a while. This could help you get a better perspective on what you’ve done and what still needs to be done.

Cancer (June 21 to July 22)
Your keen Cancerian insight should help you determine whether a new offer is solid or just more fluff ’n’ stuff. The clues are all there, waiting for you to find them.

Leo (July 23 to August 22)
Being ignored is difficult for any proud Leo or Leona. But pushing yourself back into the spotlight might be unwise. Instead, let things work themselves out at their own pace.

Virgo (Aug. 23 to Sept. 22)
Trying to uncover a colleague’s secret under the pretext of showing concern is ill-advised. Control your curiosity in order to avoid raising resentment in the workplace.

Libra (Sept. 23 to Oct. 22)
Expect to hear good news about a loved one. Also, be prepared for some changes in several family relationships that could develop from this lucky turn of events.

Scorpio (Oct. 23 to Nov. 21)
Some surprises are expected to accompany a number of changes that will continue through part of next week. At least one could involve a romantic situation.

Sagittarius (Nov. 22 to Dec. 21)
You might be upset by some of your critics. But most of your associates continue to have faith in your ability to get the job done, and done well.

Capricorn (Dec. 22 to Jan. 19)
A workplace goal that suddenly seems out of reach is no problem for the sure-footed Goat, who moves steadily forward despite any obstacles placed in his or her way.

Aquarius (Jan. 20 to Feb. 18)
Uncertainty about who is right and who isn’t might keep you from making a clear-cut decision. Wait until you know more about what you’re being asked to decide.

Pisces (Feb. 19 to March 20)
Be careful to keep your emotions in check when dealing with a demanding personal situation. You need to set an example of strength for others to follow.
