## City of Fenton voters to decide two ballot proposals on Nov. 6

See Page 17A to estimate the potential tax increase to your home.

By Vera Hogan

Now that Fenton voters have been provided extensive information and details on the need for road repairs citywide, officials are hoping the second time is a charm at the polls.

On Nov. 6, voters will decide two proposals. The first asks voters to amend the city charter to allow for the levy of taxes for 10 years instead of three, for the exclusive purpose of repairing roads and streets. The second proposal

See **PROPOSALS on 17A**

### CHARTER AMENDMENT PROPOSAL NO. 1

Section 11.1 of the Fenton City Charter permits the City, upon voter approval, to levy taxes exceeding 13 mills but not greater than 20 mills on real and personal property. Currently, the Charter does not allow any such tax to be levied for more than three years. The City Council desires to amend Section 11.1 of the Charter to allow voter-approved millages solely for road and street improvements to be levied for up to 10 years. Shall the amendment as proposed be adopted?

### ROAD MILLAGE INCREASE PROPOSAL

*Note: Adoption of this road millage increase proposal is conditioned upon the adoption at this election of charter amendment proposal no. 1.*

Shall the City of Fenton impose an increase of 5 mills (\$5.00 per \$1,000 of taxable value) of the taxable value on all taxable property within the City and levy it for 10 years, 2019 through 2028 inclusive, for the sole and exclusive purpose of improving roads and streets within the City, which will raise an estimated \$2,050,000 in the first year, of which a portion will be distributed to the City of Fenton Downtown Development Authority and Local Development Finance Authority?

## Linden seeks millage to fix the roads

■ Estimated to raise \$5 million over 10 years

By Hannah Ball

On absentee voter ballots and the Tuesday, Nov. 6 ballot Linden residents will see a question asking if they want to create a millage for the purpose of fixing city roads.

The ballot language will ask residents for 5 mills for 10 years to improve, replace, resurface or reconstruct roads in the city. Funds will not be used for routine maintenance.

According to Linden Interim City Manager Scott Sutter, who is also the police chief, this is the first time Linden has gone out for a road millage. If it passes, it would affect all Linden property owners. The millage would raise more than \$5 million over the course of 10 years.

■ Retailers looking to hire largest pool of seasonal workers in several years

By Sally Rummel

Are you in the market for a job right now? If so, this holiday season might bring you the best Christmas present ever. Many retailers will be hiring for the holiday, thanks to a healthy economy and strong consumer confidence. The National Retail Federation (NRF) is expecting a 4.3- to 4.8-percent increase over last year's strong holiday season, which was up 5.3 percent from the previous year. The NRF predicts that retailers will be hiring between 585,000 and 650,000 seasonal workers, compared to 582,500 in 2017. With so much competition among retailers, the intense demand for "holiday help" is driving up wages and perks to match full-time employee compensation levels. For example, Target is offering sea-

sonal workers a starting pay of \$12 per hour and random drawings for a \$500 gift card and \$500 donation to a local nonprofit organization of their choice, from each store and warehouse. Macy's seasonal workers are eligible to receive quarterly bonuses if they reach certain goals. Many of these retailers have been hiring aggressively since July because of the tight job market. Here are a few national businesses that are hiring seasonal help:

• Target .....	120,000 workers
• UPS .....	100,000 workers
• Kohl's .....	90,000 workers
• Macy's .....	80,000 workers
• FedEx .....	55,000 workers
• JCPenney .....	18,000 workers
• Michaels .....	15,000 workers

Locally, businesses are looking forward to a busy holiday season, but many will rely on their current staff to get the job done.

4 WINNER WINNER TURKEY DINNER'

■ Enter to win grocery gift cards — just in time for Thanksgiving dinner

By Sharon Stone

Be sure to check out the Times' "Winner Winner Turkey Dinner" contest in this edition of the Times. Participants have the chance to win up to \$1,400 in gift cards redeemable at one of the area's grocery stores—Alpine Marketplace, Holly Foods or VG's Grocery.

How it works

To enter, go to pages 12A and 13A of this issue to find 48 entry forms. Each form is sponsored by an area business. Fill out as many entry forms as you wish, and take each form to that sponsoring business. On Wednesday, Nov. 7, at the end of the business day, each business will draw a \$30 gift card winner. Each winner will be contacted by the sponsoring business and presented with a \$30 grocery gift card. The winner's name will also be published in the Nov. 11, 2018 edition of the Times. There is no limit to how many contests one person can win. If your name is drawn at all of the participating businesses, you (could) will win \$1,400. Good luck, everyone and remember...Shop Local this holiday season.

# Come *Heller* high water...

• **Perhaps this belongs** in an edition of my occasional column called “Crabby Andy,” but is over-politeness, just like rudeness, on the rise? I’ve had these two interactions more times than I can count recently:

1) I’m schlumping slowly down the stairs of a parking garage when someone who passed me two flights back — the annoying type who runs marathons on the weekend for fun — waits to hold the door for me, forcing me to speed up, which

Andrew Heller  
FEATURED COLUMNIST

I didn’t want to do because this particular stairway leads to work, and frankly I’m in no hurry;

2) I pull up to a four-way stop five to 10 full seconds after another car. Instead of

taking his turn to proceed through the intersection so we can both be on our way, he waits for me to go, which I don’t do because I’m keenly aware that he got there first and I’m a rule follower. Then he smiles and gives me that little “you go ahead wave,” which annoys me because, look, bud, I don’t want to think when I get to a four-way stop, I don’t want niceties, I just wanna go in the correct order so I can get where I’m going. So my question to you, dear reader, is, “Am I just being crabby here?”

• **Yeah, probably I am.** Still, I think being overly polite is a passive aggressive form of being rude.

• **Watching the Red Sox** destroy the Dodgers in the World Series has been a pleasure tempered only by the presence of so many former Tigers on the field. Ian Kinsler, J.D. Martinez, David Price and Rick Porcello are all Red Sox, and it makes me wonder how a team with those guys plus Cabrera, Verlander and Castellanos could fail to win a championship. Amazing. In a

way, the 2013-2015 stretch, when the Tigers had one of the best teams in their history, is also one of the saddest in team history.

• **UM fans, don’t** you wish Jim Harbaugh would just shut up about MSU?

• **Have you ever** seen a vanity plate that you can’t decode and it bugs you the rest of the day?

• **This is what** I don’t understand about Trump. After the bomb scares, he called for civility, which is what

a president is supposed to do. Good for him.

Then the very next morning he was blaming the media for making people angry in the first place. What the?

• **I see “Modern Family”** has killed off Shelley Long’s character. Too bad. I liked it when she dropped in. Ah, well. The show jumped the shark three years ago, anyway.

• **Yahoo was ordered** this week to pay \$50 million to 200 million people whose information was stolen in one of the biggest breaches in history, which works out to 25 cents apiece. And we wonder why companies don’t bother much with security.

• **The good news:** There have been so many breaches that pretty much everyone’s data is out there, meaning the odds are longer that it will be used for nefarious purposes. Me? I haven’t been that lucky. I’ve had stolen information about me used twice. It’s a creepy feeling, and takes a long time and a lot of effort to fix.

**LEGALIZE MARIJUANA** IN order to ‘fix the roads?’ Has everyone gone crazy? What’s next, legalize heroin to raise funds? I used marijuana for years. It is a lung killer as well as a drug. It is still just getting high. Remember liberal logic: kill the babies, save the whales.

■ ■ ■  
**IS THERE ANYTHING** else to put in the Hot lines besides political crap? What’s happened to the local talk?

■ ■ ■  
**DON’T BE FOOLED** by Proposal 3 language. It appeals to the average voter because it offers straight ticket voting. But, the additional language is nothing more than a short cut to fraudulent voting proposed by slick liberals. Same day register and voting; along with anytime, anyone absentee votes is a direct pathway to voter fraud. Vote NO!

■ ■ ■  
**I’M VOTING NO** on all three state proposals. One — police have enough to do without worrying about marijuana. Two — let the winners of the elections set the districts. That’s their job. Also, supported by Democrats. Three — we have a great, honest voting process. Don’t mess it up.

### Fenton’s roads millage

Dear Editor,  
I attended a presentation made by our city manager and the director of public works. Here are facts I learned: The recent (2015) state gas tax increase is being used to pay state debt and not available to cities until 2021. Two miles of Fenton’s roads are rated good; 30 miles are rated fair to poor. Many of those roads are near school neighborhoods. The DDA will receive monies from the taxes collected in their district only. They pay for the roads in their district, so we receive the same benefit. Those facts are important. I live in Whisperwood. Our roads are private, but we benefit from living in Fenton. Support the amendment and millage increase — for Fenton’s future. Unless we take care of our infrastructure, property values will go down. Attend the meeting Nov. 1. Be informed, bring a friend. Some things are worth paying for.

# There are 167 Fenton, Holly and Linden names on sex offender registry

## ■ Be mindful of where your children go trick-or-treating

By Vera Hogan

While more and more parents are moving away from door-to-door trick or treating in favor of church, school and other organized events, there still are hundreds of little ghosts, goblins and witches running around local streets on Halloween, in search of those sugary treats.

If parents aren't planning on personally accompanying their kids, or sending along older siblings on the trick-or-treat trail, they should make sure they know where any registered sex offenders may reside.

In Fenton (48430 zip code), there are currently 73 registered sex offenders. Eleven of those 73 do not currently live in Fenton, but Fenton is listed as another known address.

In Holly (48442 zip code), there are currently 74 sex offenders, 26 of whom do not reside in Holly but Holly is listed as another known address.

In Linden (48451 zip code), there are 20 registered sex offenders with four of them listing Linden as another known address.

These lists can be found at michigan.gov/msp and click on sex offender registry. Or, simply google Michigan sex offender registry. Information can be gathered about specific individuals by name, or all offenders by city.

Members of the registry are not allowed anywhere within 1,000 feet of a school or playground and in some cases, are barred from certain jobs. While the list does keep neighborhoods informed of who is moving in next door, there are some who view the list as unfair to those who commit lesser crimes.

As long as convicted sex offenders let law enforcement agencies know about where they are living and working, it is their right to relocate to a new home. Since offenders frequently change their address, it is very important to always be informed.

Michigan began identifying offenders in three different tiers in July 2011.

**TIER 1** offenders include those convicted of possession of child pornography, aggravated indecent exposure if it is witnessed by someone under 18, misdemeanor sexual touching if the victim is under 18, and taking photos of an unclothed person if that person is under 18.

All Tier 1 offenders must register with police once a year for 15 years.

**TIER 2** offenses include soliciting minors for sex, distributing child pornography, using the internet to seek out children for sex, sexual touching if the victim is between 13 and 17 years of age, and soliciting a prostitute under the age of 18.

These offenders must register twice a year with police for 25 years.

**TIER 3** offenders include those con-

victed of rape, attempted rape, molesting a child under the age of 13, and kidnapping a minor, even if there is no sexual component to the crime.

Tier 3 offenders must report four times a year for life.

People concerned about sex offenders in their neighborhood and the type of offense that put them on the list should be aware that laws are strict in order to protect the public.

However, it is possible for someone to get on the registry as a Tier 1 offender for urinating in public, for example. It also is possible for someone to be on the registry as a Tier 2 offender if one person was 18 and the other 15 when they engaged in sexual activity. That couple could now be married and have children of their own.

If a person feels comfortable doing so, it is socially acceptable to ask why the neighbor is on the registry and get the reason straight from the source. It may give a clearer understanding of the offense and judge of character.

Those on the list face strict reporting requirements or face going back to jail or prison. They must report within three business days any changes in addresses and employment, new school enrollment, and the purchase or sale of a car. They also must report email addresses and screen names.

## MICHIGAN'S REGISTRY IS EXCEPTIONALLY LARGE

• **Michigan's registry** is the fourth largest state registry in the country.

• **As of May 2017**, there were almost 43,000 people on Michigan's registry.

• **Michigan has the** third highest per-capita registration rate of any state.

• **Approximately 2,000 more** people are added to the registry each year, or about five a day.

• **Because the registry** is so large, it is hard for police to know which registrants need careful monitoring.

## LOOKING BACK at this week in HISTORY

COMPILED BY VERA HOGAN

### OCT. 28

**1965:** Construction is completed on the Gateway Arch, a spectacular 630-foot-high parabola of stainless steel marking the Jefferson National Expansion Memorial on the waterfront of St. Louis, Missouri. The Gateway Arch, designed by Finnish-born, American-educated architect Eero Saarinen, was erected to commemorate President Thomas Jefferson's Louisiana Purchase of 1803 and to celebrate St. Louis' central role in the rapid westward expansion that followed. Of local interest, Saarinen also designed the Fenton Community and Cultural Center building.

### OCT. 29

**1929:** Black Tuesday hits Wall Street as investors trade 16,410,030 shares on the New York Stock Exchange in a single day. Billions of dollars were lost, wiping out thousands of investors, and stock tickers ran hours behind because the machinery could not handle the tremendous volume of trading. In the aftermath, America and the rest of the industrialized world spiraled downward into the Great Depression.

### OCT. 30

**1991:** The so-called "perfect storm" hits the North Atlantic producing remarkably large waves along the New England and Canadian coasts. Over the next several days, the storm spread its fury over the ocean off the coast of Canada. The fishing boat Andrea Gail and its six-member crew were lost in the storm. The disaster spawned the best-selling book *The Perfect Storm* by Sebastian Junger and a blockbuster Hollywood movie of the same name.

### OCT. 31

**1517:** The priest and scholar Martin Luther approaches the door of the Castle Church in Wittenberg, Germany, and nails a piece of paper to it containing the 95 revolutionary opinions that would begin the Protestant Reformation. In his theses, Luther condemned the excesses and corruption of the Roman Catholic Church.

### NOV. 1

**1958:** A fire at a grade school in Chicago kills 90. The Our Lady of Angels School was operated by the Sisters of Charity in Chicago. In 1958, there were well over 1,200 students enrolled at the school, which occupied a large, old building. Unfortunately, little in the way of fire prevention was done before December 1958. The building did not have any sprinklers and no regular preparatory drills were conducted. When a small fire broke out in a pile of trash in the basement, it led to disaster. When the fire was finally extinguished several hours later, the authorities found that 90 students and three nuns had been killed in the fire.

### NOV. 2

**1947:** The Hughes Flying Boat — the largest aircraft ever built — is piloted by designer Howard Hughes on its first and only flight. Built with laminated birch and spruce, the massive wooden aircraft had a wingspan longer than a football field and was designed to carry more than 700 men to battle. It had a wingspan of 320 feet and was powered by eight giant propeller engines. Development of the Spruce Goose cost a phenomenal \$23 million and took so long that the war had ended by the time of its completion in 1946.

### NOV. 3

**1964:** Residents of the District of Columbia cast their ballots in a presidential election for the first time. The passage of the 23rd Amendment in 1961 gave citizens of the nation's capital the right to vote for a commander in chief and vice president. They went on to help Democrat Lyndon Johnson defeat Republican Barry Goldwater in 1964, the next presidential election.

**PLEASE, CLEAN UP** after your dog when you walk them in the park. You can't imagine how disgusting it is to put a wheelchair in the car and find dog droppings stuck to the wheels, or worse yet in my husband's shoes.

**I MET A** restaurateur in town the other day. In discussing his treatment by the local residents, the words 'kind,' 'friendly' and 'welcoming' were frequently used by him. Way to go, Fentonites. These attributes never get old.

**I WOULD LIKE** to offer correct, factual information to the Times readers. Trump's robust economy is considered the best in 70 years with 7.1 million jobs now available, most Americans are seeing lower taxes, higher wages, and a boost in manufacturing, better trade deals and foreign policies. Most Americans are benefiting from President Trump's business acumen.

**WHAT POLITICAL PARTY** has been in power for at least the last eight years and has increased your gas tax, increased your automotive registration fees, all allegedly for road improvements, and hasn't done anything yet?

**DO NOT BE** misled. Proposal 18-3 is not about straight-ticket voting. If passed, the proposition enacts 'automatic voter registration' (a.k.a., a path for illegal immigrant voting) and 'no-reason absentee' voting (for vote stealing from the infirmed).

I support medical marijuana. If Proposal 1 passes, the Legislature is going to have to update existing state laws. While ICE is a federal agency, its mission has veered off course by separating immigrant families from their children at the border, placing children in detention camps while deporting their parents. I support employer-based health care options.

**Comments:**  
I believe tomorrow can be better than today, and we have the power to make it so. Disagreements should be embraced. Debates allow us to see differing perspectives and find the best solutions. We, ultimately, agree on more than we think. Decisions are made by those who show up. Vote.

**Comments:**  
I am the candidate who brings the experience to fight for our area resources as county commissioner. Given the complexity of the issues at hand, simple yes/no answers cannot give a voter adequate insight on my positions. I urge you to visit my website or Facebook page for more information.

### HOT LINE CONTINUED

**SO, TRUMP IS** outright desperate pandering for votes now, teasing another tax break that he can't even actually give, especially since his last tax break is crippling the budget. I sincerely hope that the thinking portion of the population won't fall for this nonsense in a few weeks.

**I HAVE NEWS** for you. The recession has already begun. Interest rates are up, inflation is rising, stock market is going down and large corporations are warning of impending layoffs. Every Republican president since 1920 has destroyed the economy. Don't believe me? Take time to look it up. Educate yourself.

**KAVANAUGH SUPPORTERS, IF** your daughter was attacked would you be satisfied with a 'short, limited' investigation? Nothing was proven one way or another. The investigation was a farce, designed to prove nothing so Kavanaugh could be approved. What was the big rush?

**IF ANY OF** us mismanage our budgets like Fenton government does, we can't demand a raise from our boss to

make up for it. Why does the city get to automatically tap the residents for more tax money?

**A \$120,000 HOME** in Fenton would pay in the ballpark of \$270 a year in a road millage. If that fails and the city uses special assessments to fix the roads like they have in other communities you could be paying \$100 a foot over the same 10 years, plus interest.

**NO ONE COMES** to the informational meetings because everyone thinks they understand, and then I read this in the Hot lines, 'THE CITY OF Fenton is trying again to get us to vote yes on Proposal 1. Vote no or they will be able to raise our property taxes every year for 10 years.' Not a single part of that is true. Ugh.

**SO YOU THINK** conservatives are cowards? Leftist protestor idiots sucker punched a GOP candidate, punched a woman candidate, and screamed at a 9-11 widow telling her it was good her husband died. They're either in a group or confront someone that can't defend themselves. So, who are the real cowards?

**Comments:**  
Politics, like people, should not be reduced to checkboxes. Real solutions require deeper understanding, compassion, integrity, and intelligence. The division in our country today is in large part caused by oversimplifying issues and evoking extreme stances when truth and progress occur not on the fringe, but when we meet each other in the middle.

## GROVELAND TOWNSHIP NOTICE OF PUBLIC HEARING COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS – 2019

NOTICE IS HEREBY GIVEN that the Township of Groveland will hold a public hearing on the use of Community Development Block Grant Funds. The Hearing will be held on **Tuesday, November 13, 2018 at 7:00 pm** at the township office located at **4695 Grange Hall Road, Holly, MI 48442** for the purpose of hearing public comments on the CDBG Program Year 2019 application in the approximate amount of \$14,216 to fund eligible projects. **All interested citizens are requested to attend the Hearing. Comments will also be received in writing or in person at Groveland Township Office, 4695 Grange Hall Road, Holly, MI 48442 until the day of the public hearing, November 13, 2018 by 4:00 pm.** Arrangements to reasonably accommodate special needs, including handicap accessibility or interpreter, will be made upon receiving 72-hour notice. Township office is closed on Friday and request to reasonably accommodate special needs should be received by the close of business Thursday at 4:00 pm. **Contact Patricia Back at 248-634-4152 or clerk@grovelandtownship.net for special needs or further information.**

# HOLLY VILLAGE COUNCIL PRESIDENT

2-YEAR TERM, (1) POSITION

Thomas McKenney  
(incumbent)

**Office sought:** Holly Village Council President  
**Occupation:** attorney  
**Residency:** Holly  
**Experience:** Past village councilmember, past member and chairperson, village of Holly Planning Commission. Member, village of Holly Zoning Board of Appeals. Member, village of Holly Downtown Development Authority.  
**Education level:** University of Notre Dame, BA, Michigan State College of Law, JD.

**Declined to answer the Times' questions**

**Comments:**  
I support Holly's 24/7 public safety and public works departments. I support sustainable public and private development that is consistent with our historic character and respectful of our natural resources. I have less interest in fixing blame for past decisions and more interest in fixing problems for our future.

You've probably seen me volunteering in the Moose Lodge kitchen, at the library researching Holly history, putting in a hard day's work at a parks clean-up, or attending various community planning meetings. I care about community beautification, economic development, safe neighborhoods and happy residents. I promise to bring a fresh perspective to the Holly Village Council.

**Declined to answer the Times' questions**

**Comments:**  
Water rate fairness: The fixed charges should be eliminated. The Bond payments should be spread over the usage. People who use a lot of water should pay more for the debt. Another priority is cleaning up village-owned properties and parks.

**SO-CALLED 'STRAIGHT-ticket'** voting is a misnomer. Currently, voters can, and always could, vote a straight party ticket. The proper term for the option of a single check vote is 'obedient, party loyalist voting option.' In no way does straight ticket voting benefit voters, it exists for the sole benefit of political parties.

■ ■ ■  
**YOU FORGOT TO** mention the trappings and failings of recreational marijuana in your article. There are issues with the disparity of laws between the states and the feds. There is an issue with the commercialization of recreational use of marijuana as seen in states that have already legalized. It is ridiculous.

# 7<sup>TH</sup> CIRCUIT JUDGE OF CIRCUIT COURT INCUMBENT POSITION

6-YEAR TERM, (1) POSITION

Tabitha M. Marsh

**Office sought:** Genesee County Circuit Court-Incumbent Race  
**Occupation:** Attorney/Judicial Candidate  
**Residency:** Grand Blanc/Mundy Township/Genesee County/Michigan

**Experience:** I have extensive courtroom experience and experience preparing legal documents such as complaints, motions, answers, orders, judgments, discovery requests and responses, freedom of information act requests, wills, powers of attorney, and any other document needed in civil, probate, criminal court proceedings, etc.

**Education level:** Kellogg Community College in Battle Creek, Michigan- Associates in Arts Degree; University of Michigan (Business School) in Ann Arbor, Michigan- Bachelor of Business Administration; Michigan State University College of Law in East Lansing, Michigan- Juris Doctor Degree

**Comments:**  
I chose to run against Celeste Bell, who is Governor Snyder's recent choice, because I believe the Genesee County residents have a right to choose their judge. Despite the threats and intimidation tactics launched against my campaign by my opposition, I ensured that the residents could make this important decision.

in Genesee County District Court, with a review hearing set for Thursday, Nov. 1.

Chanell Flemming, 30, of Detroit, was bound over to circuit court Oct. 19 and was released on \$20,000 cash surety bond.

KK Lavon McGilary, 28, of Detroit, was also bound over to circuit court. The judge ordered a cash surety bond of \$40,000. He remains lodged at the Genesee County Jail.

Marquis Raekwon Boykins, 18, of Detroit, was arraigned Aug. 29 in district court. The judge ordered a cash surety bond of \$40,000. He is lodged in the Wayne County Jail on unrelated charges.

The three defendants face charges of unarmed robbery and larceny of more

than \$20,000. They face up to 10 years, or three times the value of stolen property for the larceny charge and up to 15 years for unarmed robbery.

The woman and two men are believed to be responsible for the smash-and-grab robbery that occurred Friday, May 18, at Kay Jewelers in Fenton. McGilary and Flemming were arrested by Utica police May 23, following a similar robbery in Shelby Township. The two also have similar cases pending in Macomb County.

Fenton police said 42 pieces of jewelry worth more than \$50,000 were stolen from the store. Lt. Jeff Cross of the Fenton Police Department said detectives believe the stolen merchandise ended up in the Detroit area. None of it has been recovered.

**ROADS****Continued from Front Page**

"We have over 3,000 registered voters," he said.

The city has held multiple public forums for residents to learn about the millage and what it would entail.

"The community was very appreciative of the presentations and presented many important questions during each one," Sutter said.

Common questions asked during those forums include the following:

**Where is the tax money going that residents pay to the city to maintain roads?**

The city receives funds for road maintenance from the state through Act 51. Linden receives approximately \$19,500 per mile of major road and \$8,000 per mile of local road funding per year.

"These funds are barely enough to cover general maintenance, such as snow plowing, salting, pothole patching, crack sealing, wages, insurance, equipment maintenance, fuel, etc," according to the city's FAQ sheet on the millage.

**Are there any grant funds available to improve our roads?**

According to the city, "There are no grant funds available for local roads. There are some grants available for major roads, but not enough to satisfy all of the needed improvements. The grants that are received typically require a 20-percent match from the city."

**How will the city decide which roads will be improved?**

The city used a PASER study, which stands for Pavement Surface Evaluation and Rating to help determine which roads should be improved and when. The study, conducted in 2014, rated each road on a scale of 1 to 10,

with 10 being the best. Linden roads received an average of 4.9 at the time. In 2018, the roads averaged a 3.3 rating. There are numerous roads between a 6-10 rating, according to a past Times article.

To read the rest of the frequently asked questions, go to [lindenmi.us](http://lindenmi.us).

**Actual ballot language for millage**

"Shall the City of Linden levy a new millage of 5.0 mills (\$5.00 per \$1,000 of taxable value) for a 10-year term (2019 through 2028 inclusive), for purposes of improving, replacing, resurfacing and reconstructing streets in the City, including drainage improvements and curbs and gutters, together with necessary rights-of-way, appurtenances and attachments, pursuant to the Road Improvement Plan that is available for inspection at Linden City Hall? It is estimated that the levy will generate \$520,000 in the first year."

**Road improvement plan timeline**

**Year one:** W. Rolston Road  
**Year two:** Main Street, Maple Drive, Lindenwood Street, East Street, and South Street.  
**Year three:** E. Rolston Road  
**Year four:** Meadowgreen Lane, Par Court, Laing Court, Birdie Court, Fairway Drive, Andrea Avenue, Kathy Circle, Pauline Pass, and Nicole Lane

“We’re already staffed for the holidays, because of all the special events that come up early in the season,” said Avery Potts, a sales associate at Susan’s Hallmark on Silver Parkway. “We were staffed by late summer, early fall, to get everyone trained.”

Glik’s of Fenton, a specialty department store, typically hires for holiday help, but management said they are fully staffed at this point.

Alpine Marketplace in Linden has about 65 employees, and owner Marvin Yono expects his staff will be very busy

during the holidays. “November and December are huge months with holiday orders, dinners, catering,” he said. “We’re already geared up for it because our summers are so busy, too. Business takes a little dip in the fall, but then we’re ready for the holidays.”

Yono said he doesn’t expect to hire extra workers, but that college kids who worked in the summer often come home on their holiday breaks and work at Alpine.

Goin’ Postal in Fenton, a copy, printing and shipping business, expects to be very busy this holiday season.

Co-owner Mike Clabuesch said his business will do triple the business they normally do the rest of the year, at Christmas. “The holiday season actually extends about three weeks beyond the holiday with returns, gifts that are still being sent out, etc., then moves right into Valentine’s Day,” he said.

“We’ll probably try to add on to our staff, but we want to be sure it’s the right fit, the right person,” said Clabuesch. “We’re not just out to hire somebody. We used to hire part-timers but last year, we decided to hire full time only. There’s more of a commitment there, more desire to stay and work.”

Clabuesch recognizes that there are hiring signs in just about every business window. “But the pool of people is really thin. So few are actually looking for work,” he said.

“We’ll probably try to add on to our staff, but we want to be sure it’s the right fit, the right person.”

CITY OF LINDEN  
ORDINANCE NO. 387

AN ORDINANCE TO AMEND SECTION 7.8 OF THE CITY OF LINDEN ZONING ORDINANCE (ORDINANCE NO. 285) TO ADDRESS EXTERIOR LIGHTING STANDARDS; EFFECTIVE DATE; PUBLICATION

THE CITY OF LINDEN ORDAINS:

Section 1. Amendment of Section 7.8 (Site and Exterior Lighting Standards).

Section 7.8 of Article 7 of the City of Linden Zoning Ordinance No. 285 is hereby amended to read as follows:

Section 7.8 Site and Exterior Lighting Standards.

7.8.1. Light and Glare from Indirect Sources.

1. The design and/or screening of the development shall ensure that glare from automobile and commercial or industrial vehicle headlights shall not be directed into any adjacent property, particularly residential property. Exterior doors shall be located, operated, and maintained so as to prevent any glare and light from creating a nuisance or safety hazard to operators of motor vehicles, pedestrians, and neighboring land uses.

7.8.2. Exterior Lighting from Direct Sources.

1. Ground illumination shall not exceed 1.5 foot-candles average maintained. The light intensity at ground level shall not exceed 0.1 foot-candles at the property line adjacent to residentially zoned or used property and 1.0 foot candle measured at the property line adjacent to all other uses.
2. Free standing light standards including base shall not exceed twenty feet (20'-0") in total height and if located in the Linden Historic District, standards and light fixtures shall be of a period design approved by the Historic District Commission prior to final site plan approval by the Planning Commission.
3. All light fixtures shall be of a sharp cut-off design. Fixtures that allow light to shine on adjoining property or create horizontal glare shall not be approved. Lighting designs that allow light to shine into a public street or right-of-way shall not be approved.
4. Free standing light fixtures shall be of a design to direct light into the development and away from adjacent property. House side shields shall be required in residential areas adjacent to any illuminated sites.

7.8.3. Architectural Lighting.

1. Illumination of buildings, monuments or flags shall not exceed fifteen (15) foot-candles average maintained. All fixtures shall be shielded or designed to prohibit glare from shining into any residential area, street or public right-of-way.
2. Unshielded luminous tube (neon), LED, incandescent or fluorescent lighting shall be prohibited as an architectural detail on the exterior of any structure; including but not limited to rooflines, cornices, eaves, windows, and door openings. The Planning Commission may approve internally illuminated architectural bands or similar shielded lighting accents as part of a site plan, upon determining that such lighting accents would enhance the aesthetics of the site, and would not cause off-site glare or light pollution.

7.8.4. Window Lighting.

1. All interior light fixtures visible through a window from a public right-

of-way or adjacent property shall be shielded to prevent glare at the property line or within a public right-of-way. Unshielded luminous tube (neon), LED, incandescent and fluorescent light fixtures shall be prohibited where the light source would be visible through the window from a public right-of-way or adjacent property.

7.8.5. Prohibited Lighting Elements.

1. Running, chasing or otherwise intermittent lighting.
2. The internal illumination of translucent building-mounted canopies/awnings.
3. The use of laser light sources, searchlights, or any similar high intensity light.

7.8.6. Exemptions. The following are exempt from the lighting requirements of this Section, except that the Zoning Administrator may take steps to eliminate the impact of the exempted items when deemed necessary to ensure that they will not interfere with vehicular traffic or the enjoyment and use of adjacent properties:

1. Holiday decorations.
2. Window displays without glare.
3. Shielded pedestrian walkway lighting.
4. Residential lighting with no off-site glare

7.8.7. Sign Illumination.

1. Sign illumination shall conform to the provisions of Article 9 (Signs).

7.8.8. Submittal Requirements.

1. Lighting designer and/or fixture manufacturer shall provide a drawing with photometric layout of the proposed design to show actual initial foot-candle levels on a plot plan sealed by a Professional Engineer or Architect licensed in the State of Michigan. Submitted drawing shall include detailed fixture schedule, which shall include manufacturer’s name, catalog number, lamp type and wattage. A complete set of manufacturer’s catalog specification sheets for each fixture type used on lighting design shall be included with photometric submittal.

Section 2. Effective Date. This Ordinance shall become effective ten (10) days following publication.

Enacted at a regular meeting of the City Council of the City of Linden held on the 10th day of September 2018.

## Fall circus fun in Fenton

■ Mini circus group entertains at community center

By Tim Jagielo

**Fenton** — In a building that usually hosts events like chamber of commerce luncheons and candidate forums, it might be the first time a circus has appeared inside the Fenton Community and Cultural Center.

On Thursday, Oct. 25, guests were treated to a unique group called The Striped Circus.

This is a collaboration of performance artists, mostly from Michigan. They include aerial artists, stilt walkers, acrobats, object manipulators, fire performers, jugglers, sideshow artists, clowns, globe walkers, human statues, unicyclers, mimes and character players, according to their Facebook page.

Bringing them to Fenton is Southern Lakes Parks and Recreation (SLPR).

With the fall chill in the air, fall is a perfect time to have a special event

indoors said, Nancy Muffley, SLPR program administrator and event planner. “In addition to that, those who

attend and dress in costume can get one more use out of their awesome Halloween costume.”

The program included lots of juggling, family friendly jokes, stunts and crowd participation.

Performing the silly and skillful feats on Thursday night were Gene Skalskyj and his assistant.

Skalskyj juggled several objects before his assistant added a bowling ball into the mix. “I thought we already did the juggling part of the show,” he said.

“This is the ‘heavy’ part of the show,” she said, often putting him in harm’s way, for a laugh.

After the performances, there was a cookie and punch reception. Muffley said approximately 125 tickets were sold.

Last year SLPR hosted a “Spooky Monster Magic Show” and they decided to offer something different this year.

“These Michigan-based artists display an array of captivating skills playfully developed into choreographed acts.”

# Blue Devils' season ends in regional semifinal, 5-1

By David Troppens

Lake Fenton's varsity boys soccer team couldn't complain with how its Division 3 regional semifinal contest began at Chesaning High School, Tuesday.

The Blue Devils scored the first goal of the game.

However, Freeland (21-5) rebounded by scoring a goal quickly after that and eventually took control in the second half, resulting in a 5-1 loss

Lake Fenton's Caleb Hardy

for the Blue Devils.

Lake Fenton (9-8) probably played a better game than the 5-1 result indicated. The game was tied 1-1 at halftime and it took awhile for Freeland to blow the game open during the second half.

"We came out and scored a goal on them," Lake Fenton varsity boys soccer coach Sam Jawhari said. "It was a nice header by Ben Polehna in the box, but then a half-minute later we gave them one right back.

"We played them pretty well. We have

a young club and probably the difference was depth. We are just getting our young guys to the point (we needed them to be at the start of the season)."

Lake Fenton didn't have a JV squad meaning the Blue Devils have to find ways to get the younger players experience against older and more experienced varsity players while still trying to get results. The Blue Devils got to the point where their depth was pretty solid against most competition, but Freeland isn't "most competition."

## Hopkins joining Linden's Athletic HOF Nov. 17

By David Troppens

Ask Denny Hopkins how many students he's coached over his career at Linden High School, and it's hard for him to figure out an answer.

Who can blame him? He has coached thousands of athletes. Since hiring in at Linden schools in 1973, Hopkins spent 20 years as varsity baseball coach, 23 years as a varsity boys basketball coach and became the varsity football coach in 1998. Prior to that, he was an assistant coach.

Hopkins has earned his share of honors. He's in the Michigan High School Baseball Coaches Association Hall of Fame and the MHSAA High School Football Coaches Hall of Fame. He will be joining another hall on November 17 when he is inducted into the Linden Athletic Hall of Fame.

"I always thought I had to be retired to be nominated," Hopkins said. "They came to me and told me and that was kind of neat. What it means is I've had a lot of good kids. They have worked pretty hard and I reaped the benefits. I put a lot of time into it and for that I thank my wife (Cathy). I missed a lot of time around the family to do what I wanted to do and she supported me. I also have to thank my kids (Kyle and Cori). They gave up a lot of time with dad coaching all the time, but I don't think they would've wanted it any other way."

The induction dinner will be at Spring Meadows Country Club November 17 at 6 p.m. Tickets cost \$40 a person and all tickets must be purchased at the Linden High School athletic office Monday through Friday from 9 a.m. until 3 p.m. All tickets must be purchased by November 12.

# Tigers' tourney run ends vs. Cranbrook, 3-0

By David Troppens

Ortonville — It was a season that saw the Fenton Tigers win an outright Metro League title for the first time since 2009.

The Tigers also defeated their biggest rivals, the Linden Eagles three times during the season, with the third win earning the Tigers a Division 2 district title. Finally, the squad posted a strong 13-4-4 mark and were ranked in the top 10 in the state for a large chunk of the season.

So, while the Tigers' season came to an end in a 3-0 loss against Cranbrook-Kingswood in a regional semifinal contest at Ortonville-Brandon High School, Tuesday, the loss didn't change what the season meant to the Tigers, especially Fenton's 13 seniors.

"I couldn't be prouder of this team," senior Chase Pulson said. "We all bonded together. We knew it was our chemistry and what we have here together as

Why do athletes play sports?

Some enjoy the dynamics of being part of a team. If a program has a winning tradition, that also will lure students to want to join an athletic team.

But there is one constant when it comes to being on a team ranging from

the middle school level to the varsity level — everyone joins a team hoping to get playing time.

Most understand that at the varsity level, most playing time is going to be earned through talent, effort and other tangible qualities that help a squad win. But what about at the middle school level, the freshman or even JV levels? How should playing time be dealt with at those levels?

Complaints about playing time are

reasonably common in the Hot lines, and have been more numerous in recent times, most concentrating on middle school athletics and specifically middle school football. It seems each area school embraces the concept that at the younger levels, balancing out playing time makes more sense for a variety of reasons.

"At the sub-varsity and middle school level we encourage participation as

# Volleyball districts start Monday

■Fenton, Linden could clash in a title match Thursday

By David Troppens

When district volleyball begins Monday, two area rivals could eventually collide in a title match at Fenton High School.

Fenton begins district action Monday against Flint Southwestern at 6:30 p.m. or after the first game of the day — Davison vs. Grand Blanc at 5 p.m. — is done.

Action continues Tuesday when Linden faces the Davison-Grand Blanc winner at 5 p.m. in the first of two semifinal matches. The other will be the winner of the Fenton-Flint Southwestern match against Lapeer at about 6:30 p.m. The district championship match will be Thursday at 6 p.m.

Holly also is involved in a Division 1 district, but the Bronchos will be heading to Waterford Kettering for tournament action.

Holly has a bye to the semifinal round, facing either Lake Orion or Oxford at 7 p.m. on Tuesday. The winner of that

match will play in the district title match against either Waterford Kettering or Clarkston Friday at 6 p.m.

Lake Fenton is the only area team competing in Division 2 action. The Blue Devils will com-

pete in the Durand district, beginning play against Williamston on Tuesday at 5 p.m. If the Blue Devils win, Lake Fenton plays Perry, Durand or Fowlerville in the district championship match Thursday at 5 p.m.

Fenton soccer (that makes us strong). We knew we were going to do great things and I couldn't be prouder of this team. I couldn't be happier playing with all of these guys."

"This year we were able to get a district title again, and it was especially nice getting it against our rivals Linden," senior keeper Noah Martin said. "It was great, I'm happy. We may not have made it as far as we liked, so it was a very bittersweet ending to it. But we went out and had all of the seniors playing together the last few minutes, and that was the best ending I've ever had to a season. I wouldn't have wanted to end it

any other way.

"We did a lot of good things. It's a great group of boys. It's sad to be leaving, but I'm sure they'll do great things next year, too."

It would be fair to say Cranbrook was the stronger team Tuesday, particularly in the second half. That said, the Tigers had outstanding chances to score early. First, there was a shot off the cross bar by Ashton McKellar about five minutes into the game. Second, there was a shot by Brady Young that was slightly deflected by the Cranbrook keeper, making the ball deflect off one of the posts.

Either shot would've given the Tigers the early 1-0 lead, but instead they were kept off the scoreboard.

much as possible," Linden athletic director Greg Durkac said. "It's not about dominating a game with a group of 11, nine, eight or six athletes, or whatever number of starters a sport has. ... We want to try to keep the kid excited and interested in the sport.

"We have very good discussions at Linden about what is the purpose and why the kids are out there."

Holly athletic director Deb VanKuiken seems to want her sub-varsity teams to take a liberal approach when it comes to spreading out playing time.

"Middle school athletes should play in every contest. However, that doesn't mean each middle school athlete will have equal playing time," VanKuiken said. "If you

don't play middle school athletes, I would bet they won't return in the future, and then you've lost them. Kids who work hard, follow the rules and are at practice every day deserve some playing time."

Fenton athletic director Mike Bakker agrees that playing time should be distributed differently at the middle school and sub-varsity levels.

"I certainly think there is a different approach to all the different levels because you have all different levels of talent at the younger levels," Bakker said. "We certainly work hard to try to get our younger levels — which would be middle school and sub-varsity — to participate in contests. But at the same time kids in the program are getting a lot of time learning their sport in practice every single day."

# Eagles cap Metro season on four-match win streak

By David Troppens

There was a time that the Linden varsity volleyball team held a 1-3 record in the Metro League and were much closer to the bottom of the standings than they were to the upper half of the standings.

Life has changed on the squad since then. The Eagles ended the Metro season with a four-match winning streak. The last of those victories was post-

ed Tuesday when Linden swept Owosso 25-12, 25-10, 25-21.

Some of the win streak certainly has something to do with the competition becoming a slight easier than the Metro powers, but it's been impressive nevertheless. Linden has swept Kearsley, Swartz Creek and Owosso during that span. The Eagles also defeated Brandon 3-1 as during the streak as well.
