The 2021 Fenton Freedom Festival Queen is...  

Fenton High School junior named Freedom Festival Queen  

By Hannah Ball  

Fenton — The Fenton Freedom Festival has a new queen. Mai Nguyen, 17, was crowned the 2021 Fenton Freedom Festival Queen on Friday, July 2 during the Street Experience in downtown Fenton.  

She said she was “really excited” to be chosen. Last year’s queen, Chelsea Bujak, crowned Nguyen in front of an applauding crowd. Nguyen thanked her family, friends and Fenton officials who put on the event and scholarship program. Applicants go through an interview process and answer questions about their involvement in the community, how they want to give back, and what Fenton means to them.

Road commission testing new substance for dirt roads  

Perma-zyme could lead to better dust management, fewer potholes  

By Hannah Ball  

The Genesee County Road Commission (GCRC) is testing a new substance that could improve dust control and prevent potholes on dirt roads.  

Perma-zyme, created by Substrata, is a substance that binds soil particles together to form a “concrete-like substance,” according to the company. In June, the GCRC in conjunction with Flushing completed a perma-zyme treatment to Carpenter Road, a one-mile dirt road, in one day.  

“Our Carpenter Road project went well. It is hardening up well with very little dust. We also had Huron, Livingston, and Oakland county road commissions show up,” Randall Dellaposta, director of operations.

It’s sad there was no spring season last year. I’m so glad that this season was able to be used as ‘warm-up’ for the travel season. My child cannot wait for travel ball to be in “full-swing!”

Feels like the pandemic is over. The lakes in Fenton have been packed and the restaurants are full. All this talk about some Delta variant is not stopping anyone from enjoying life.”

All these orange cones in town mean one thing, better roads.”
McLaren Fenton has added more imaging capabilities to its already comprehensive services. Fenton area patients can now have an MRI close to home.

McLaren Fenton now offers the following imaging services:

- MRI
- CT (including lung cancer screenings)
- 3-D Mammography (online appointments)
- Ultrasound
- X-ray
- Bone Density

Weekend appointments are available for some imaging services.

You can schedule a screening mammogram and learn more about our imaging services at mclaren.org/fenton.

For appointments and questions, call us at (810) 496-2430.
Meet Linden school’s new therapy dog

School officials say young students love reading to Mari the chocolate lab

By Hannah Ball

Linden — Linden Community Schools will soon welcome a new employee to work at Argentine Early Childhood Center — Mari the therapy dog.

Mari is the latest addition to the district’s therapy dog program. The 14-month-old chocolate lab is expected to join the school full time this July.

Superintendent Russ Ciesielski gave a presentation about the program to the Linden City Council on Monday, June 28.

“We are implementing a therapy dog program in our district. We’re starting with our youngest learners at Argentine Early Childhood Center and that’s our pre-K students,” he said.

The Hyatt Elementary principal works with someone who has a certified therapy dog to bring them into the school. Ciesielski has been discussing the potential of having a therapy dog at Linden Elementary, too.

“When we looked at what just happened with the pandemic year we had, one of our main focuses was on the health and wellness of our students and our staff,” he said. They did research on how therapy dogs have worked at other businesses and industries, and they wanted to “jump right on board.”

“Obviously, it eases social isolation of students. It does bring people together,” he said. “Animals help reduce anxiety and they lower stress levels.”

Paradise Dog Training in Fenton is handling Mari’s training. She’s been visiting the Argentine Early Childhood Center.

“It does help students to read, and there’s research out there because students feel comfortable reading to a dog,” Superintendent Russ Ciesielski said.

“Animals help reduce anxiety and they lower stress levels.”

“Obviously, it eases social isolation of students. It does bring people together,” he said. “Animals help reduce anxiety and they lower stress levels.”

Denise Westervelt (right), early childhood coordinator at the Argentine Early Childhood Center, trains with Mari at the school Friday, July 2. She will be the primary handler for the dog. Dianne Hukill (middle), administrative assistant, and Kathy Haycock (left), teacher, also will work with Mari. The three of them have been working with Paradise Dog Training.

Independence Day fireworks

By Editor Sharon Stone

People across this country love their fireworks. There’s just something nostalgic about relaxing on a warm summer night and watching the skies above explode with colorful sprays of fireworks. The bright lights can momentarily light up your surroundings and cast a patriotic red, white and blue glow over everyone.

I know numerous people were upset that the city of Fenton canceled the traditional Fenton Freedom Festival and nighttime fireworks based on the number of Hot lines that came across my desk. The FFF committee had an April 5 deadline to make a decision on whether they could move forward with the biggest event of the year. At that time, the COVID rules for Michigan wouldn’t permit such a large gathering and there was no way our local committee could predict the future.

But, to the delight of families across the tri-county area, just as they have done in past years, lake associations sought private donations from members and businesses hoping to raise enough money to purchase fireworks and host their own fireworks shows.

When darkness fell over us Saturday, July 3, the skies over Lake Ponemah/Squaw/Tupper (PST) lakes and Lake Fenton lit up to help us celebrate our great country’s Independence Day. Our country is now 245 years old. Since it was my birthday, I joked that the fireworks were to celebrate my big day too.

The PST board members collected more than enough money to purchase this year’s fireworks thanks to generous residents and businesses. The money left over will go to next year’s fireworks show. The group coordinating this year’s fireworks did have to scramble at the last minute to find a suitable place to launch the fireworks since the small island they typically use was a bit underwater because of the heavy rains the area saw recently.

**Back to the Bricks announces grand marshal**

Ribbon-cutting at Factory One in Flint on Aug. 18 at 4 p.m.

Back to the Bricks announced this year’s 17th annual Car Show & Cruise official grand marshal, Dr. Bobby Mukkamala.

In a July 1 press release, organizers stated that when the Back to the Bricks Executive Committee met to discuss this year’s grand marshal, the main topic that kept coming up was who in our community is deserving of a much-needed “thank you” for all they have done in our community through the pandemic? It was a very easy decision.

This year’s official grand marshal is Dr. Bobby Mukkamala. The Board of Directors unanimously agreed that Mukkamala played a huge role in making their event, and other events in the community, possible. This past year through the unprecedented times, Mukkamala stepped up and stepped out of his normal everyday life to truly help others. His dedication and innovation to create masks with his son in his lab, his educated wisdom throughout the COVID-19 pandemic to the governor’s office, lawmakers and physicians statewide was just the beginning.

Mukkamala still dedicates his time to make sure vaccines are available for our community. He supported and encouraged everyone, even led by example for all to get vaccinated.

Mukkamala is a true leader in this community, and one that doesn’t like the limelight, but is very deserving of it. He will take part in the ribbon cutting at Factory One in Flint at 4 p.m., Aug. 18, followed by a Rolling Cruise from Factory One to Grand Blanc High School where he will be received by the Grand Blanc Chamber of Commerce at their “Pit Stop” Cruise In along the cruise route.

Mukkamala also will be at the Saturday Main Event Opening Ceremony as a Special Guest, Aug. 21 at 10 a.m. near the GM Statue Plaza in downtown Flint on Saginaw Street.
Ask the judge

The NCAA decision and Kurt Vonnegut Jr.

Kurt Vonnegut Jr. has been called one of the most important contemporary writers and dark humor commentators on American society. His first novel was “Player Piano” published in 1952. It was set in a fictional post World War III society where life was dominated by machines.

There were also some other significant differences from the way things were before the war.

Among these was college football, where the concept of amateur athletics was abandoned and instead all of the players were paid salaries. Recruiting was based on attracting players using salary incentives rather than scholarships.

I remember thinking when I read the book in 1971 that this could never happen in real life.

Sometimes truth is stranger than fiction or at least has similarities.

Fast forward to 2014 when a regional director of the National Labor Relations Board found that Northwestern University’s scholarship football players were “paid employees” and could form a labor union.

Although this decision was reversed on appeal, the door to reviewing compensation for college athletes had opened briefly.

On June 21, 2021 the United States Supreme Court released its opinion in National Collegiate Athletic Association (NCAA) vs Alston and unanimously held that the NCAA’s rules restricting certain educational benefits for student athletes violated antitrust law under the Sherman Act. This law prohibits businesses colluding or merging, thus forming a monopoly, to dictate pricing in a particular market, which results in an unreasonable restraint of competition.

The court found the educational benefits restrictions by the NCAA and its member schools (such as not allowing laptops or paid internships) were anticompetitive and schools should be allowed to offer whatever educational benefits they wanted to recruits.

Because of the procedural posture of the case, the court didn’t rule on other possible non-educational benefits which could be offered including salaries.

However Justice Brett Kavanaugh in a concurring opinion, questioned the NCAA’s right to have any restrictions at all.

On June 30, in response to Alston, the restrictions on athletes signing professional endorsement contracts for their names, images, and likenesses, were removed by the NCAA.

Reportedly a number of athletes have already signed contracts.

No one knows what will happen next, but I am certain that if he were still with us Mr. Vonnegut would find this all very interesting.
How to plan a perfect game night

Strengthen bonds between friends, share laughs to last a lifetime

Shared experiences are ideal ways to make new friends or solidify established relationships. Bonds can be strengthened even further when those shared experiences include entertaining activities. This is a great reason for adults to incorporate routine game nights into their social calendars.

Game nights are nothing new. Perhaps your parents or grandparents gossiped over a few games of gin rummy or weekly poker gatherings? Before the widespread proliferation of digital video games, board games were a go-to way to have fun. Even now, game nights can provide the perfect way to slow down, have fun and get together with friends.

Hosting a game night can be an ideal way to have fun at home without turning on the television. The following are a few things to consider when planning a game night.

The number of people dictates which games can be played

How many people are invited to game night will determine the games that can be played. Game nights tend to be more successful with a guest between four and eight players. Keeping people engaged in a game can be more challenging if there are more than eight individuals, and most games are designed for a maximum of eight players.

Plan for finger foods

Game night etiquette typically dictates that hosts will provide refreshments. In lieu of a sit-down meal, offer finger foods, which are easier to manage while engaged in game play. Premade party platters are an option if you want to spend more time entertaining and less time preparing food. Guests also can be encouraged to bring small dishes, such as sandwiches, chips and dips or other snacks.

Have a variety of games on hand

Let the course of the night be relatively fluid, even if you have a certain game in mind. If guests are not fans of a particular game, make sure you have others at the ready. Music or a sports game playing in the background also can be a way to keep guests entertained between turns. When deciding on games, consider these criteria, courtesy of Game Night Gods, an online game night resource:
• The game should be easy to learn.
• The game should be relatively fast-moving.
• The game should pique interest and be strategic.

Get out of your comfort zones

Acting zany and engaging in games that push people out of their comfort zones can help guests get to know one another and laugh along the way. Games also are a perfect way to learn something new with little to no pressure.

versus reading to their peers,” he said. “It’s going to help students academically as well as emotional support.”

He said therapy dogs will also help with emotional support for staff.

“The dog is actually a Linden school employee. We’re really excited,” he said. “I know the kids are really excited, our staff is excited.”

They plan to bring the dogs to Linden events as well.

Denice Westervelt, early childhood coordinator, will be primary handler for Mari. They brought the dog in to meet some of the students and staff last week and on Friday, July 2.

“It was wonderful. I can’t say enough about Paradise Dog Training,” she said, adding that the company found a dog that was a good fit to be around young children.

“She loves sitting with the kids. She doesn’t jump, she doesn’t bark. She’s a very calm dog. She’s not going to hurry up to the kids and scare them,” Westervelt said.

Paradise brings Mari to the school so she can get used to the environment and the staff can learn the commands. Mari should be done with training in mid or late July.

Westervelt will take her home at the end of the school day.

“I’m excited, I’m delighted. After the last year-and-a-half of COVID and everything, I think it’s just a nice feeling for everybody. I know my staff was delighted when I said we’re going get a therapy dog,” she said.

Mari, the 14-month-old chocolate Labrador, loves when students read to her, said school officials. She’s calm and loves to be pet.

**THERAPY DOG**

Continued from Page 4

A new family at the tip of Emerald Pointe graciously volunteered their backyard for the launching site and the problem was solved. The show was recorded and can be found on YouTube.

Just across the highway, fireworks were launched from Cases Island in the middle of Lake Fenton. They have gotten larger every year and are enjoyed by boaters on the lake as well as families around the lake if they have a view. Organizers have had a gofundme account for a few years to raise funds so that each year’s show could be bigger and more colorful than the last. The Lake Fenton Cases Island Firework Team has been entertaining the area for 35 years but did announce this week on social media that this year’s fireworks display from Cases Island would be their last. The show, provided by private donations and the work of such a dedicated group of individuals, will be missed in the future.

To all of the people who made these Fourth of July shows possible, thank you, and Happy Independence Day, America.

**GROWING COMMUNITY NEWSPAPER IS SEEKING A HIGH ENERGY INDIVIDUAL FOR INSIDE ADVERTISING SALES**
QUEEN
Continued from Front Page
This past year, Nguyen got involved when a company proposed building an asphalt plant in Tyrone Township.
“I spoke at the board meeting... they were talking about why it’s a bad idea to have it there. I personally focused on the pollutants and the economy and how the housing market around Tyrone Township will go down and how it will affect the economy even if it will produce jobs,” she said.

Nguyen, 17, has attended Fenton Area Public Schools her whole life. She’s frequently in downtown Fenton for the farmers markets and other events.
“I really like how safe it is here. My family picked Fenton as a place to raise our kids. I have two little sisters. It’s a very safe atmosphere to be in,” she said.

“Moving to Fenton was a really good decision for them.”

Bujak, the 2020 queen’s scholarship recipient, and Brody Stack, the 2020 king’s scholarship recipient, spoke at the event and commended Fenton officials for their work.
Nguyen thanked Bujak and Stack and said they helped her a lot throughout this process and as seniors in school.

The three students helped during the Street Experience on Friday, July 2 by handing out candy and ice cream.
Nguyen will be a senior at Fenton this coming fall.
“It’s been a long ride. It feels like it’s going really fast. It’s already July and I remember taking the SATs the other day. I’m really excited to move on but at the same time, I’m really nervous,” she said.

Every year, the Festival and Fenton & Linden Chamber of Commerce present the winners with $1,000 scholarships.
Pat Lockwood, chair of the Fenton Freedom Festival, said there were no applicants for king this year when they will return to a “full fledged and robust” Freedom Festival with a parade, fireworks and engaging the local nonprofit and civic groups in the events.

to see the process and learn a little more about the product,” said Genesee County’s Director of Engineering Eric Johnston in a press release.

This is the first year they’ve used the perma-zyme from Substrata.
Randall Dellaposta, director of operations at the GCRC, said, “If it works well, we hope to do more roads in the future. We’re always looking for creative ways to be cost efficient, and we’re looking for quality ways to maintain the roads safely and securely for the motorists.”

Substrata is a bio-chemical manufacturer of enzyme-based products used for road and soil stabilization, soil conditioning, petroleum bioremediation, cleaning and odor control. According to substrata.com, perma-zyme is made with a special enzyme formula that hardens dirt roads to form a concrete-like surface that lasts 10 years.

The GCRC normally uses magnesium chloride or liquid calcium chloride for dust control. They contract with townships to apply it twice or three times a year to dirt roads, depending on what the municipality requests.

The perma-zyme is made with a special enzyme formula that hardens dirt roads to form a concrete-like surface that lasts 10 years.

The perma-zyme is made with a special enzyme formula that hardens dirt roads to form a concrete-like surface that lasts 10 years.

Substrata did “extensive” testing on Genesee’s soil. They determined that perma-zyme can work underneath. Typically, perma-zyme requires 20 percent clay content for the product to work effectively, according to the release, however Substrata did “extensive” testing on Genesee’s soil. They determined that perma-zyme can work with limestone present.

“Perma-Zyme has a positive charge and bonds with the negative charge in both clay and limestone which induces an electrochemical reaction that results in a concrete-like surface that gets stronger over time,” according to the press release.
Fenton’s Miller wins national championship in 200 at Outdoor Nationals

By David Troppens

Brandon Miller is a national champion.

The Fenton 2021 graduate capped off his prep track and field career by capturing the 200-meter dash national championship at The Outdoor Nationals Presented by Nike held at Hayward Field at the University of Oregon last weekend.

Miller also posted the second-fastest time in Michigan prep history in the 100-meter dash (10.52 seconds).

Miller, ran the 200-meter dash in a time of 20.49 seconds, defeating Jordan Anthony (20.57) by .08 seconds to earn his 200 national championship. Miller ended up an All-American in the 100 as well.

“I was absolutely elated,” Miller said. “It meant the world to me to win that because I sacrifice almost every day for practice.”

“It is the second time this year that Miller earned a national championship. He captured the Adidas Indoor Nationals championship while running the 200, earning a time of 21.183 seconds at that meet in February.

Justin Miller also competed at nationals in the high jump and earned All-American honors while Noah Sage competed in the 200 and the 400.

Brandon Miller had a slim lead in the 200 final once the runners got beyond the turn. He stretched it early on the straightaway and then held on down the stretch against who was supposed to be one of the favorites, Anthony.

“I remember getting a good enough start to be in the mix,” Miller said about the 200 final race, “and then slingshotting off the curve and slowly pulling ahead of the rest of the field.”

He posted a time of 20.96 seconds to finish third in the preliminary round.

“When I pretty much jogged my 200 prelim and went 20.96, I knew that I was bound to go pretty low in the finals,” Miller said.

The win was considered a “surprising” victory for Miller on some sites. One recording of the 200 final includes no discussion of Miller during the race until he’s about 20 meters away from the finish line.

Miller placed second at the Division I state meet with a time of 21.36 on June 5.

In the 100, Anthony was the national champion with a time of 10.21. Miller posted a time of 10.52 seconds in the preliminary round, earning him the third seed entering the final.

Once the race began, Miller was in the middle pack for the entire race, and posted his personal-best time of 10.41 seconds. He edged out Jonas Clarke by .01 second for fourth.

“I was also very pleased with my 100 time,” Miller said. “I’m honored to now hold the second-fastest 100 meter time in Michigan high school history.”

Despite all of his success, which included leading the Fenton Tigers to their first-ever team state championship in boys track, nothing came easy for the graduated senior. Miller started the season on an all-time high, taking first in the 200 at the Outdoor Nationals Championship at The Outdoor Nationals Presented by Nike by winning the 200-meter dash with a time of 20.49 seconds. He also was an All-American in the 100 with his time of 10.52 seconds.

Tigers were one of four teams in crazy 1967 AL pennant chase battle

Editor's Note: Through the years sports editor David Troppens has collected historical radio and television broadcasts of Detroit Tigers games. During the summer, he’ll be featuring some of these games through his collection based on the a date close the actual date of our current publication.

July 8, 1967

Detroit 2, Boston 0

Network/Announcers: This was an NBC Game of the Week. The announcers were Curt Gowdy, Pee Wee Reese and Sandy Koufax.

Background: The 1967 American League pennant race is among those that many books have been written about. Boston won the title by a game over the Tigers and the Minnesota Twins. Chicago finished three games behind. Entering action on July 8, the White Sox were three games ahead of second-place posting an 18-6 record, which included two six-game winning streaks during the season.

The second started during the second-last contest of the regular season, a 66-42 victory against Olivet and continued with a 72-39 victory at home against Brandon. The Blue Devils then competed in Division 2 district action at home and defeated Mt. Morris, Brandon and Goodrich to capture the D2 title.

the SPIE Ohio Championship Preview Meet on Jan. 30 with a time of 21.29 seconds, and eventually as the MITS Indoor State Finals runner up with a time of 21.85 seconds. As mentioned, he also won a national championship at the Adidas Indoor Nationals in February with a time of 21.183 seconds.

However, during the spring season Miller was struck with COVID, and was in quarantine until near the end of the regular season. He was able to come back for the Metro League meet, winning the 100 (11.01) and the 200 (21.88) titles, but he still wasn’t at full strength.

“My just got over COVID two weeks ago so it’s been a little tough,” Miller said at the time. “I’m still trying to get my endurance under me but I’m getting a little better every week.”

MICHIGAN VOTES

LEGISLATIVE ACTIVITY

— Compiled by Sharon Stone —

MichiganVotes.org is a free, non-partisan website created by the Mackinac Center for Public Policy to provide concise, non-partisan, plain-English descriptions of every bill and vote in the Michigan House and Senate. This report was released Friday, June 25.

House Bill 4434: Require unemployment bureau communications use plain language

To end further state participation in the $300 weekly “supplemental” unemployment benefits authorized by a federal “stimulus” spending bill. News reports indicate 25 other states have refused the benefits due to concerns they incentivize people not to work while jobs are plentiful. The bill would also require the state unemployment agency to use clear and concise plain language in its communications and determinations.

Passed 19 to 16 in the Senate

Sen. Ruth Johnson (R-Dist. 14) YES
Sen. Jim Runestad (R-Dist. 15) YES
Sen. Lana Theis (R-Dist. 22) YES
Sen. Jim Ananich (D-Dist. 27) NO
Sen. Ken Horn (R-Dist. 32) YES

Senate Bill 379: Prohibit governor from unilaterally increasing state’s road debt

To prohibit a governor from adding to the state’s long term debt by borrowing money for road repairs (“bonding”) without consent from two-thirds of the House and Senate. The bill comes after the legislature refused to enact a 45-cent-per-gallon gas tax proposed by Gov. Gretchen Whitmer, who then authorized $800 million in new road debt in 2020, and eventually up to $3.5 billion. Money to service these debts comes out of future gas taxes and other transportation tax revenue.

Passed 19 to 16 in the Senate

Sen. Ruth Johnson (R-Dist. 14) YES
Sen. Jim Runestad (R-Dist. 15) YES
Sen. Lana Theis (R-Dist. 22) YES
Sen. Jim Ananich (D-Dist. 27) NO
Sen. Ken Horn (R-Dist. 32) YES

House Bill 4204: Authorize automated “photo cop” school bus passing citations

To permit school districts to install cameras on school buses for the purpose of prosecuting motorists who illegally pass a stopped school bus. Passed 35 to 0 in the Senate

Sen. Ruth Johnson (R-Dist. 14) YES
Sen. Jim Runestad (R-Dist. 15) YES
Sen. Lana Theis (R-Dist. 22) YES
Sen. Jim Ananich (D-Dist. 27) YES
Sen. Ken Horn (R-Dist. 32) YES

House Bill 4603: Permanently allow “virtual only” commodity marketing board meetings

To permit members of the agricultural commodity marketing boards to meet electronically. The bill would permit this on a permanent basis, not just in epidemics. These entities allocate money collected through mandatory assessments levied on growers; examples include commissions for growers of apples, asparagus, potatoes, cherries, beans, beef and others.

Passed 34 to 1 in the Senate

Sen. Ruth Johnson (R-Dist. 14) YES
Sen. Jim Runestad (R-Dist. 15) NO
Sen. Lana Theis (R-Dist. 22) YES
Sen. Jim Ananich (D-Dist. 27) YES
Sen. Ken Horn (R-Dist. 32) YES

House Bill 4980: Permit drag races in the sand at Silver Lake State Park

To make an exception to the state law banning drag racing for “an activity at Silver Lake State Park authorized by the Department of Natural Resources.” This would apply to a 450-acre section of sand dunes park managers have set aside as a “scramble area” for ORVs.

Passed 96 to 12 in the House

Rep. Bob Bezotte (R-Dist. 47) YES
Rep. Mike Mueller (R-Dist. 51) YES

Horoscopes

ARIES
Mar 21/Apr 20
Aries, opportunities to discuss future business enterprises with interested parties arise this week. Your meticulous nature ensures you are prepared to take advantage of these chances.

TAURUS
Apr 21/May 21
Others begin to notice how articulate and charming you can be, Taurus. This is a prime time to invite friends over or to find a romantic partner if you're single.

GEMINI
May 22/June 20
Gemini, even if you do not consider yourself to be an artistic person, inspiration to pursue creative endeavors comes to you this week. Try something different.

CANCER
June 21/July 22
Cancer, you will be the planner for an event that brings together a number of people who share a common goal or interest this week. Conversations will be stimulating.

LEO
July 23/Aug 22
You may be pushed into the public eye, Leo, and perhaps you are worried that you will not be prepared. You are a natural born leader who can impress a crowd.

VIRGO
Aug 23/Sept 22
Virgo. You will likely spend hours talking about your fields of interest, including exotic locations.

LIBRA
Sept 23/Oct 22
Unusual dreams could spark new ideas in your life, Libra. Don't discount them as fantasy. Figure out how you can push the boundaries of your imagination.

SCORPIO
Oct 23/Nov 21
Scorpio, you have been craving social contact with new and interesting people. That is just what you will find at a neighborhood gathering this week.

SAGITTARIUS
Nov 22/Dec 21
Sagittarius, if you feel like you have been spending too much time at work lately, it could be time to dial things back a bit. Don't overdo it.

CAPRICORN
Dec 22/Jan 19
Much of this week will be spent in the company of family and close friends, Capricorn. Lots of people rooting for you might be just what you need right now.

AQUARIUS
Jan 20/Feb 18
Aquarius, you may decide to host a social event at your home over the next few days. Don't put too much pressure on guests. See how the day unfolds.

PISCES
Feb 19/Mar 20
Shake up your schedule, Pisces. Engage in something that is outside of your comfort zone. Push yourself to try new things.
