

Does Linden have a speeding problem?

■ City conducts traffic study

By Hannah Ball

Linden — A recent traffic report shows that most drivers traveling west through Linden speed when they initially enter the city via Silver Lake Road.

A memo from Linden Police Chief Scott Sutter to Linden City Manager El-

len Glass states that in 2021, the Linden Department of Public Works (DPW) placed speed measurement devices and traffic counters on E. Broad Street just east of Hickory from Sept. 7, 2021 to Oct. 22, 2021. They recorded the number of vehicles and the motorists' speed during this time. The devices were taken to the Genesee County Planning Com-

mission and the data were extracted.

The speed limit changes from 45 mph on Silver Lake Road in Fenton Township and drops to 35 mph and then 25 mph at Linden city limits traveling west, which is when the street becomes E. Broad Street. The road curves twice — after passing Triangle Park and after Fairview Cemetery.

The data show that the average speed for vehicular traffic was 30 mph on E. Broad Street just east of Hickory Street during the 46-day period.

"In 2020, the city of Linden Police Department conducted speed enforcement for several weeks using radar. The results from this enforcement and See **SPEEDING** on 10

Relocating tennis courts equals more parking spaces

■ DDA looks to relocate tennis courts — considers parking deck behind community center

By Sharon Stone

The two tennis courts just south of W. Caroline Street and to the east of the Shiawassee River in downtown Fenton are expected to be relocated to Bush Park.

OHM Advisors, the city's engineers, are surveying the parcel where the tennis courts are located for redevelopment.

The large parking lot behind the Fenton Community & Cultural Center at 150 S. LeRoy Street also is being surveyed. Redevelopment of this parking lot could result in a parking deck for additional parking.

These topics were discussed at the DDA See **TENNIS COURTS** on 10

'Quite a blessing'

(From far left) Cody Welch, Fenton United Methodist Church finance committee chair, burns the mortgage paperwork on March 13. After serving as the Fenton United Methodist Church for 35 years, Gary Horton officially retired at the end of 2021. Due to the pandemic, the church delayed the celebration of his retirement until March 13, the same day church leaders burned the mortgage. In this Times 2019 photo, Horton explains how he played the pipe organ for 35 years. He also was in charge of the electronic steeple bell system that sounds several times a day.

■ Fenton church pays off mortgage, burns paperwork to celebrate

By Sharon Stone

The congregation at Fenton United Methodist Church (FUMC) recently had reason to celebrate two milestones. Using the interest from the church's endowment fund, they were able to pay off the remainder of the original \$1.75-million mortgage on the Family Life Center building. The church also celebrated the retirement of longtime church organist

Gary Horton.

Fenton City approved the church's plans for the \$3 million Family Life Center building in 2004 and the completed facility opened to the public Aug. 19, 2006. The center was the dream of the approximate 1,300 members of the congregation.

The building also was the vision of the late Pastor David W. Truran. In an August 2006 Times article, Pastor Truran said, "We got a lot of positive feedback from the people on the beauty and the ministry. This facility is a vision given to us from God. We hope to minister not only to our church, but to the community. Our aim is to

offer wholesome, high-valued programs."

Truran died unexpectedly Dec. 1, 2006 after suffering a heart attack. He had served as pastor for the past 20 years.

A bronze statue of "Jesus & the Children" in the lobby of the lower level of the center greeted those who entered the main door when they held a tour in 2006.

The building has seven classrooms, a large activity room, lockers for men and women and more. The top or main level of the building features a large multipurpose room where basketball and volleyball can be played.

Building Brands

Brand yourself as a great client

Growing up in a newspaper family meant growing up with certain truths: Deadlines are not optional; When the printing plant calls, you answer and — the most important of all truths — the customer is always right.

The older I get, however, the more I struggle with the last truth. I'm sure at some point in my life I thought my dad (View Newspaper Group Publisher Wes Smith) invented the phrase, but upon further research, "the customer is always right" is actually credited to Harry Gordon Selfridge Sr., an American retail magnate.

I certainly understand the idea behind the sentiment. I agree that when a person is spending money with your business you should do everything in your power to make the transaction easy, deliver results and in general make the person feel good about that investment. But I think it's time to retire the phrase.

Instead, I think people on both ends of the deal should work together to make the experience a great one. We can all be right! No matter if you are the seller or the customer (remember, we

sellers are customers too at times), we all deserve a pleasant experience. I write a lot about how to be great on the selling side, and today I'm going to share some tips on how to be a great client.

Trust the expert: I went in for a haircut the other day and showed my long-time stylist an idea of something I wanted to try. The look on her face said it all. She didn't like it. But more importantly, she didn't like it for me. I'm so glad that she felt comfortable enough to tell me the truth. Although I'm the customer, I was clearly wrong. I trusted her and in turn, I have a haircut I love. The experts inside our building have

hundreds of years of experience in advertising, marketing and branding, we are here to help a client's business grow and thrive and nothing feels better than when we are trusted to do just that.

Teamwork makes the dream work: This is another over-used phrase in business, but one that I still like. While we are experts in our industry, we aren't experts in a client's industry. When writing a piece about a client's business or working on an ad design to help promote a product or service, great clients work with us to be sure we've got the correct language and a basic understanding of what they do so we can share that accurately with our readers. We can't create effective

Oakwood Cemetery to get two more columbarium units

■ In response to increased practice of cremations over traditional gravesite burials

By Sharon Stone

Fenton City Council approved the purchase of two additional columbarium units for Oakwood Cemetery at its Monday, March 28 meeting. This came after Council reviewed the need to purchase additional columbarium units to at its work session Dec. 6, 2021.

At the Oct. 4, 2021 city council work session, Cemetery Chairman Doug Tebo presented information showing a change in burial practices where cremations have exceeded traditional burial since 2015. The Michigan Association of Municipal Cemeteries (MAMC) reported that by 2025, columbarium niches will be 63% of all burials in Michigan.

Genesee County reported that it has already exceeded that percentage.

As the city's current columbarium

unit has sold all niche spaces, the Cemetery Board would like to add two additional columbarium units at Oakwood Cemetery.

During the Dec. 6, 2021 council work session, pricing was presented for the purchase of two columbarium units that match the existing unit. Council members requested a legal opinion from the city attorney to determine whether the city may purchase the two columbarium units without a competitive bid or quote process.

In a letter dated March 16, the city attorney concluded the city could purchase two matching columbarium units without the need to undergo a competitive bid or quote process.

Matthew Butts, president of Fenton Memorials, submitted pricing for two additional columbarium units that

would match the existing one. The cost with installation for both units is \$40,500. Each columbarium has 48 spaces for a total of 96 niche spaces.

Coldspring Granite Co. of Minnesota indicated it would honor its November 2021 quote. Coldspring Granite Co. is the one provider that has the exact granite to match what is already being used for the existing columbarium at Oakwood Cemetery.

work in a vacuum and our best clients know that.

Deadlines are not optional: While this is a truth in the newspaper business, deadlines are important in so many businesses. We are all busy and the best clients understand that everyone's time is valuable, so when a schedule is set for approval of drafts and finals, for example, it's best when everyone hits those dates.

Good things come to those who wait: Apparently this column is full of cliché phrases, but again, this is one I can get behind. I am an instant gratification person. When I want something, I want it now, so I understand clients who want to see immediate results from an investment — be it an ad or branding project. But as with many things in life, the only way for meaningful results to happen is to do the work and wait and then do it again. Consistency and frequency are at the core of most success stories.

We are all human: Mistakes happen and the best clients are the

ones who understand that. Great clients don't have to let mistakes slide, instead they are the ones who grieve those mistakes with us and help us find an agreeable way to make up for them.

Have some fun: The very best clients are the ones you can laugh with. There are certain clients I visit and leave with a burst of energy. This can be for many reasons, sometimes it's thanks to the passion that client has for what they are doing and sometimes it's because we know each other and our goals so well the meeting is two minutes and then we spend the next 30 minutes chatting about vacations, pets or what we did last weekend, giving us all a much-needed mental health break. Life is too short to make every interaction very serious business. The very best clients know that you can have fun and still be successful.

What do you think makes a great client? I'd love to hear your tips. Email me at ecaswell@mihomewpaper.com.

Emily Caswell is the brand manager for VIEW Group, the branding division of View Newspaper Group.

The law of trespass

In poet Robert Frost's famous poem "Mending Wall," two neighbors are repairing a stone wall, which separates their properties. One neighbor is the narrator and during the course of the work is told twice by his neighbor that "good fences make good neighbors."

This fence reference has been interpreted as being a statement or metaphor that certain boundaries are necessary in life and that human relationships thrive when people have clear personal boundaries and don't go beyond them.

The law of trespass supports this proposition as a trespass is an unauthorized invasion of the property rights of another. In other words, a violation of their boundaries.

This area of the law dates back to the 13th Century in English common law.

The word trespass comes to us from the Anglo-French word "trespasser" meaning "to overtake, exceed, wrong."

Trespass laws vary by the state. In Michigan, we have both criminal and civil trespass.

Examples of criminal trespass include entering a home without permission, malicious destruction

of property, and unlawful dumping, all of which carry the possibility of incarceration and/or fines.

Michigan also has a general criminal trespassing statute.

Under this statute, if a person enters the lands or premises of another without lawful authority after having been forbidden to enter by the owner, or occupant, or their agent, or remains after being told to leave, it is a crime. Entering fenced or posted farm property is also trespass.

Civil trespass provides for monetary damages to be awarded for harm caused by the trespasser. This is what is known as a "tort" or a civil wrong.

Examples of such trespass include trespass to land, trespass to personal property (called chattels), and trespass to the person (such as an assault).

Certain types of civil trespass can also result in an award of triple damages. An example is cutting down and carrying away the trees on another person's land.

As one can readily see the term trespass has a broad meaning and encompasses almost all situations where there is any type of unjustified interference with a person's property or personal rights.

The law has long recognized that everyone has certain rights. These include the right not to be harmed or damaged by others.

Good fences do make good neighbors.

Linden adopts hazard mitigation plan

■ Adopting plan gives city access to emergency funds in the event of disasters

By Hannah Ball

Linden — Linden City Council adopted the Genesee County Hazard Mitigation Plan during its Monday, March 28 meeting.

This allows the municipality to be able to apply for hazard mitigation funding and implement hazard mitigation projects in the event of a natural, technological or human-related disaster.

This is an update to the emergency management multi-jurisdiction plan, said City Manager Ellen Glass.

Councilor Brad Dick said he recently took a seminar on this topic. “Basically, if we don’t have this tonight, we won’t get a dime. We need it.”

Genesee County Metropolitan Planning Commission (GCMPC), in coordination with the Genesee County Sheriff’s Emergency Management and Homeland Security Division, completed an update to the Genesee County Hazard Mitigation Plan. It was adopted by the Genesee County Board of Commissioners on Feb. 16.

The plan now meets the Federal Emergency Management Agency’s (FEMA) required criteria for a multi-jurisdictional Hazard Mitigation Plan and has been conditionally approved by FEMA.

Formal approval by FEMA is contingent upon the adoption of the plan

update by the county and local units of government. Municipalities that do not adopt the plan update will not be eligible. The plan includes a hazard assessment, which is “a process that incorporates historical data, social factors, geographic and climatic factors, population data and public perception to determine a community’s vulnerability to specific hazards,” according to the plan.

Planners determined a calculated level of impact in the event of different hazardous events from infrastructure failure, dam failure, a terrorist attack, a nuclear attack, earthquakes and more.

The full draft of the plan can be read at gcmpc.org.

The resolution states, “the city of Linden, Michigan is vulnerable to a wide range of natural, technological, and human-related hazards, and has experienced repetitive disasters that have caused loss of life, damaged commercial, residential and public properties, displaced citizens and businesses, closed streets and presented general public health and safety concerns.

“Genesee County has prepared a Genesee County Hazard Mitigation Plan Update that provides an understanding of those threats, identifies the hazards affecting the area, discusses the County’s vulnerability to the identified hazards, and outlines the community’s options and strategies to reduce overall damage and impact from natural and technological hazards.”

BLESSING

Continued from Page 3

Pastor Jeff Jagers, who has been with FUMC since 2014, said the church had shrunk its mortgage down to the last \$325,000 and decided to use money from the endowment fund to pay it off. He said last year was a great year in the markets, which generated more funds they could use. "It's quite a blessing," he said.

A celebration was held Sunday, March 13 in Truran Hall and several church leaders were on hand to help burn the mortgage paperwork. Truran's widow, Donna, also attended and spoke.

Jagers said burning of the mortgage expressed the church's commitment to pay off its debt, to be debt free and to be able to move money toward other

Current and former pastors of Fenton United Methodist Church and lay leadership, along with the church's bishop, Bishop David Alan Bard, and District Superintendent, Rev. John Hice, prepare to burn the mortgage.

missions. He said, "We really feel blessed to be downtown."

Jagers added that pre-COVID, the Family Life Center and church were open for activities seven days a week. Every day, groups used the Family Life Center for their activities. "I look forward to that again," he said.

In a November 2019 Times article, Horton said that more than 1,000 hymns could be played on the church bells. The bell systems are automated but programmable. In that article, Horton said he learned to play the organ via his four-year degree from the University of Michigan and continued education. "I just like music. It uplifts people's spirits and that makes me want to perform better," Horton said. "The choir loves singing with the organ."

Resident rescued from second floor bedroom

■ Kitchen fire causes damage and heavy smoke in 102-year-old house

By Sharon Stone

The Fenton Fire Department rescued a Fenton man, in his late 20s, from a second floor bedroom of a smoke-filled home on Friday, April 1.

Fire Chief Bob Cairnduff said the fire department was toned out at 9:43 a.m. after receiving a 911 call from the man, who lives in a two-story home in the 100 block of S. Lemen Street. Firefighters were on scene at 9:49 a.m. Using a ladder, the fire department was able to get the man out of the home.

The fire, which originated in the kitchen was under control by 9:55 a.m. The fire chief said they have not finalized their determination of cause, but they believe the fire might be electrical in nature.

The fire was contained to the kitchen area, however, the home was filled with heavy smoke. Cairnduff said there's approximately \$50,000 to \$75,000 worth of damage. According to Fenton City records, the home was built in 1920.

Cairnduff said the man was asleep at the time and woke up to smoke and called 911 from the bedroom. Firefighters also rescued a dog from the home.

PARK

Continued from Front Page

During the Monday, March 28 meeting, Linden City Council indicated that they would prefer a minimal design plan for the park. They made a motion to approve permission for Southern Lakes Parks and Recreation (SLPR) to continue to develop designs to turn Triangle Park into a trailhead supporting The State Bank Trail.

SLPR received a Michigan Natural Resource Trust Fund (MNRTF) grant for \$300,000.

The park is a potential trailhead in The State Bank Trail, which is expected to be constructed this spring along Silver Lake Road.

During a meeting earlier this month, SLPR presented the public with two design options. The first plan included adding a pavilion, picnic tables, benches, a bike repair station, drinking fountain, interpretive signage and trash/recycling receptacles in the future. It also has 12 regular spaces and four handicap spaces on the east side, along with creating areas for people to relax, LED lights, developing a garden area, potentially using the pavilion for community events and more.

The second plan is more minimal and would have less of an impact on the surrounding residential area. This plan encompasses a parking lot with five regular spaces and two handicap spaces on the west side, ADA access to The State Bank Trail, trash/recycling receptacles, a bike rack, an informational kiosk and the trailhead.

A more minimal approach, which

most people favored, would allow planners to develop further amenities at Triangle Park over time if desired or needed. A few nearby neighbors expressed concerns over people parking in their driveways. Scott Ward, who lives right near the park, spoke during the SLPR public meeting earlier this month and supported the second plan.

During the March 28 meeting, Jeff Huhta, from Nowak & Fraus Engineers, said making sure the facilities are ADA accessible helped them score high for grant money. Connecting to the anticipated State Bank Trail also increased their score with connectivity. The entire project costs an estimated \$2.5 million to \$2.7 million.

He said the goal is to create a facility that works for everybody, which is why they proposed to make Triangle Park a trailhead in the grant application.

SLPR is in the design phase of the project. Huhta said this meeting was about getting the council's input on the plans. They hope to have the completed design by June.

Councilor Heather MacDermaid said they discussed adding more benches.

"The biggest thing is we don't want our entire park to turn into a parking lot/trailhead. We like the second one because it meets requirements as a trailhead, but it still leaves two-thirds of the park" for farmers markets, picnic tables and other activities," she said.

City Manager Ellen Glass asked if they are going to put any directional signage at the trailhead and along the trail, which goes through Linden and to the Linden Community Schools

area. Huhta said there are opportunities for signage along the trail which would identify local establishments, maps and more information.

Councilor Brad Dick said he has issues placing a trailhead near the edge of the city and that placing a trailhead at Eagles Wooden Park would get more people into downtown Linden.

Mayor Danielle Cusson said people can start in Argentine Township and travel through Linden to Fenton and vice versa. Huhta said in order to meet the grant, they have to make sure the area is accessible.

Councilor Ray Culbert said he was glad SLPR chose design two. He thanked Huhta for all the work he's done on this project. "This is going to be great for all of our communities," he said.

Councilor Aaron Wiens also supported design two. He also mentioned they should anticipate an increase in traffic and that concerns about drivers speeding is going to be exacerbated.

POLICE & FIRE REPORT

COMPILED BY SHARON STONE

CATALYTIC CONVERTERS POPULAR WITH THIEVES

Fenton police are investigating two reports of theft from the Michigan Department of Transportation (MDOT) carpool lot on Silver Lake Road. Lt. Jeff Cross said a man called police March 31 to report that the catalytic converter of his 2009 Ford F-350 pickup truck had been cut off and stolen. The theft happened between 5:30 a.m. and 3 p.m. The device is valued at \$2,500. The next day, April 1, a woman called Fenton police to report that the catalytic converter had been cut off and stolen from her Chevrolet Trax from the same carpool lot during the same time. This device is valued at \$900. The bigger the catalytic converter, the more value it has. Cross said the police department has increased its presence at the carpool lot. Police do not have any suspects. Anyone who sees something suspicious or any individuals crawling under vehicles is urged to call 911 immediately.

FUNERAL

Continued from Front Page

Tyler Hamel

attempted to retrieve a couch that had fallen from his pickup truck on southbound U.S. 23 in Fenton was pronounced deceased the next day, March 27.

Fenton police identified the man as Tyler Hamel of Lansing.

A Toyota minivan, driven by a woman in her 70s, struck Hamel. Cross said there were no signs of distracted driving, however, at the location of the crash, there is a slight hill and curve that could have been a factor. She was not injured.

Celebration of the Funeral Mass was scheduled for today, Wednesday, April 6 at St. Gerard Catholic Church. Memorial contributions can be made to Gift of Life or Ele's Place in his memory.

The two city-owned tennis courts that run along the east side of the Shiawassee River and south of W. Caroline Street in downtown Fenton are expected to be relocated at Bush Park. This move would provide more parking spaces downtown.

TENNIS COURTS

Continued from Front Page

meeting in February and the DDA board approved \$17,000 in surveying costs.

Michael Hart, assistant city manager and DDA executive director, said that for more parking behind the community center they could opt for an improved surface lot or for substantially more money, they could opt for a parking deck, where maintenance costs for the future would increase significantly. "We shall see how things go over the next number of months as it all plays out," he said.

Hart said the existing tennis courts, which are between 20 and 25 years old, are at the end of their service life. He said the city would like to rebuild them and add pickleball courts, but relocate all of them to Bush Park.

Relocating the courts to Bush Park

could strengthen the offerings at the park off N. LeRoy Street.

Relocating the courts also could free up area for more parking spaces along the river. Hart said the existing tennis courts are located in a flood plain. The area would not be appropriate for structures, however, it could be appropriate for additional parking.

Hart said the cost to rebuild the tennis courts and pickleball courts at Bush Park could be pretty expensive, however, he did not have an exact amount at this time. He said the DDA could apply for grants but that process could take years. An alternative would be for the DDA to cover the costs. "It makes sense to have the DDA cover the costs," he said.

Demolition of the existing tennis courts would be done by the city's department of public works. Hart said they'd don't have a timeline of when this will be completed.

SPEEDING

Continued from Front Page

collection of data indicated that the average speed throughout the study was 29 mph," according to the report.

It also found that approximately 5,741 vehicles traveled that stretch of road daily. The report also states that a large number of accidents is an indicator of speeding issues. However, between January 2020 and the end of December 2021, there were only five traffic crashes on Silver Lake/Broad Street between Ripley Road and High Street.

Three of these crashes were vehicle or deer incidents. Another crash involved a vehicle turning left onto Broad Street from High Street without the driver looking for oncoming traffic.

The other incident was a potential road rage incident.

"The research indicated there were no accidents as a result of speed. The Linden Police Department will continue to monitor speeds at this location as well as locations throughout the city of Linden," according to the report.

Sutter does not believe the city has a speeding issue in this area.

"Based upon the research and the accident data, I do not believe there is a speeding issue in this area. There are occasional vehicles speeding and as the memo stated we will continue to monitor this area, as well as other areas in the city," he said.

In recent meetings, Linden councilors have expressed concerns over speeders and suggested the city add more signage stating the speed limit.

Metro changes scheduling for diamond sports this spring

By David Troppens

When the spring sports season begins in full force this week, there will be some changes some fans in some sports may notice.

The biggest ones involve baseball and softball.

Gone is the double round robin format of all 12 Metro teams fac-

ing off in doubleheaders for a 22-game season. Instead, the Flint Metro League will focus on Division play and increase the games among those squads within their own division.

In baseball, that will mean three games against each of the other five division foes for a 15-game

schedule. Games are scheduled with doubleheaders on Mondays at one venue and a single game on Thursday at the other home venue against the same Monday opponent. This means teams like Fenton, Linden and Holly will play each other three times

See **CHANGES** on 13

Ranked among the top 10 in the state in Division 2, the Linden softball team won't get to compete against defending D2 state champs Owosso in league play unless the two teams face off in the crossover title game at the end of the season due to scheduling changes for baseball and softball in the Metro League.

Fenton's DeRidder transferring from Michigan State to North Dakota

By David Troppens

For four seasons, Drew DeRidder has been one of the few strengths on a struggling Michigan State hockey squad.

The Fenton resident and Spartan goalie has had his bumps and bruises himself, but for the most part he's been one of the team's greatest strengths during his career at MSU.

That career with MSU officially ended recently when DeRidder transferred to the University of North Dakota so he can complete his collegiate career with the Fighting Hawks.

DeRidder, who recently earned Honorable Mention All-Big Ten honors, entered the transfer portal on March 9. He made his decision where to transfer and made it official on his Twitter page on March 26.

"I am so thankful for my time at Michigan State," DeRidder typed. "These have truly been the best four years of my life. I am very excited to be transferring to (the University of North Dakota men's hockey team) for my last year. I'd like to thank my family and my teammates."

"We would like to welcome Drew to North Dakota," said North Dakota men's hockey head coach Brad Berry. "He brings a bevy of collegiate experience to our group while also matching our program's culture."

DeRidder entered this season as a preseason All-Big Ten Honorable Mention selection and posted a 2.95 goals against average and a .918 save percentage this season. He played in 25 games this season, starting 24 of those contests. He played 1,449 minutes and allowed

71 goals on 799 shots. He earned a 9-14-1 record for the season. DeRidder was off to a pretty strong start to the season, holding an 8-4-1 during the 2021 portion of the season, as the Spartans started doing something that the rarely had done in DeRidder's time with the squad, they started scoring some goals.

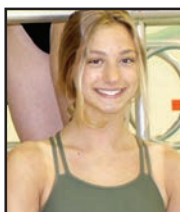

However, the goals dried up as 2022 began as did the team's wins and so did DeRidder's performances a little bit as opposing teams were taking target practice on the MSU goalies. In his final 17 games, the Spartans mustered up 17 goals, scoring as many as three just once in those contests. On Dec. 30 after a 3-2 victory against Michigan Tech, DeRidder enjoyed a 1.99 goal against average and a .946 save percent-

LF student Connelly records strong showing at national swim meet

By David Troppens

The tri-county area had strong representation from the Fenton varsity swim programs at the recent 2022 NCSA Spring Swimming Championships with the OLY swim program, but they weren't the only swimmers from local high schools at the event.

LF's Josie Connelly

The team's top point performer at the meet was one from a student at a school without a pool — Lake Fenton.

Lake Fenton High School student Josie Connelly recorded team points for OLY in five individual events and helped relays to other team points at

the meet recently held in Florida.

Her top performance was a fifth-place finish in the 50-yard freestyle, recording a time of 22.75 seconds. She also finished top 20 in four other individual events as well.

She also took 13th in the 50 backstroke (25.14) and 18th in the 100 freestyle (50.41). She posted a 19th-place finish in the 100 backstroke

(55.03) and finished in a tie for 20th in the 50 breaststroke (29.46). Her final individual event was the 100 breaststroke where she placed 51st in 1:05.17.

Connelly also helped many OLY relays thrive. The best was the 200 freestyle relay along with Gracie Olsen, Elsie McCaul and Sophie
See **CONNELLY** on 12

CONNELLY

Continued from Page 11

Curtis. They finished in a tie for seventh place in 1:33.26. The same team also placed 19th in the 400 freestyle (3:26.60). She also teamed with Lucy Malys, McCaul and Curtis to earn an eighth-place finish in the 800 freestyle relay (7:24.36).

The 200 medley relay of Connelly, Olsen, Malys and Curtis took 13th place (1:42.96) while the 400 medley of the same swimmers placed 31st (3:51.91).

Connelly scored 57.5 team points in individual events, the most of any athletes in the OLY program.

Lake Fenton High School currently is in a co-op relationship with Kearsley High School, but Connelly did not compete with that squad a year ago.

1968 Tigers hit lull, fall out of first in early May

By David Troppens

Editor's note: With spring sports starting up this week, this may be our last story on the 1968 season for a few editions. It will return when it can throughout the spring, but will become a regular feature throughout the summer months.

Even during great seasons, there are lulls.

In baseball, seasons are 162 games long. It's almost impossible to not have at least small losing streaks or losing skids over the course of a week to 10 days.

When the 1968 Detroit Tigers returned to Tiger Stadium on April 29 to start a week-long homestand, no one was thinking the Tigers were about to start one of these lulls. The Tigers finished their trip with a 5-3 mark, ending it with a twinbill split at Yankees Stadium. When they left to play at Chicago, the Tigers were up a game in the American League

A young Reggie Jackson was one of the Athletics' star players in 1968.

standings and now they were up a slight bit by two games.

With the Oakland A's coming to Tiger Stadium for two games, optimism was increasing that maybe 1968 would finally give Detroit its first AL pennant since the 1945 season when players like Hank Greenberg roamed around Briggs Stadium.

The homestand began on the right foot, with another walk-off

victory by the Tigers. It was the year of the pitcher and Oakland's Chuck Dobson and Detroit's Mickey Lolich was locked in on a typical game from the 1968 season — a low-hit shutout contest entering the late innings. The Tigers broke the scoreless tie in the bottom of the eighth inning when Don Wert hit a home run to lead off the inning. Detroit led 1-0. Ray Oyler followed with a single and was on second base with just one out, but the A's were able to get out of that jam as Oakland went to their pen to put out the fire.

In the top of the ninth, Oakland put together a threat and tied the game at 1-all. Reggie Jackson singled and eventually scored on Danny Cater's two-out RBI-single. The game was tied entering the bottom of the ninth 1-1.

But the Tigers responded in the bottom of the ninth once

again, and, again, it was Wert who drove in the run. With one out, Bill Freehan was hit by a bit. Two outs later, Cash was at second base when Don Wert hit a single. An error on the hit allowed Cash to score, earning the Tigers the 2-1 win in a game witnessed by just 9,125 fans. In a contest that took just 2:30 to play. Lolich pitched the four-hitter to earn his first win of the season. Detroit now held a 12-4 mark, remained two games ahead in the standings and now had their fourth walk-off win among their 12 victories.

However, the Tigers started to back up to the rest of the AL during the rest of the homestand. The Tigers ended up splitting its two-game series with Oakland, losing a 3-1 verdict. Oakland scored three runs on a three-run home run by Ramon Webster in the first inning off Detroit start-

Synopsis of Argentine Township
Regular Board Meeting March 28, 2022

- Call to order @ 7:00 p.m.
Pledge of Allegiance led by Trustee Conner
Present: James, Graves, Conner. Absent: Saad, Schmidt.
Approved: Minutes as printed of Regular Board Meeting February 28, 2022 & Special Board Meeting March 11, 2022.
Approved: Payment of expenditures.
Issued: 3, Building permits totaling \$ 1,380.00, & 2 Zoning Permit totaling \$600.00.
Approved: Budget amendments as presented by Clerk.
Approved: Promotion of Steven Thompson as Assistant Fire Chief, and Kyle Kurtz as Captain.
Approved: \$3,527.66 to T Daniels Migration of emails.
Approved: 5 year contract renewal to Sourcewell for postal machine at \$202.89 quarterly.
Approved: \$240,000.00, for purchase of generator for Bird Rd. pump station.
Approved: Agreements with GCRC for Limestone resurfacing on Lahring, Duffield and Lillie Rds., along with township ditching projects.
Approved: Resolution 2022-6, for Pay as you stay program.
Approved: Township Assessing Policy.
Approved: Lawn maintenance proposal with Royalty for \$45.00 per cut.

Adjourned: 7:19 p.m.

Submitted by Joseph Graves
Argentine Township Clerk

DERIDDER

Continued from Page 11

age to that point of the season. DeRidder was among 28 nominees for the Mike Richter Award, given annually to college hockey's top goaltender. On December 14, he was the No. 1 Big Ten Star of the Week after earning a 30-save shutout victory against then No. 8 Notre Dame in a 1-0 Spartan's victory. He also was the Big Ten's second star on Oct. 26 after a 37-save performance in a 2-2 tie against UMass Lowell. The Spartans were 10-7-1 after the victory with Notre Dame. DeRidder was fourth in the nation among D1 goalies for save percentage at that time.

However, the Spartans dropped 15 of their final 16 games of the season, ending the year at 12-23-1 overall and 6-18 in the Big Ten. DeRidder's final victory as a Spartan came in a 2-1 victory against Penn State in which he made 37 saves, including 20 in the third period, to carry the Spartans to victory.

DeRidder concluded his MSU career with 70 games played, a 2.95 goals against average and a .916 save percentage. The Spartans were basically

cellar dwellers during his career with the program, but that wasn't DeRidder's fault as those numbers indicate. The Spartans scored 165 goals in DeRidder's 70 games he played, the team was shut out eight times and scored one goal 20 times.

"I loved my time here at Michigan State," DeRidder said in an interview. "I wouldn't trade it for the world. It wasn't going the way I wanted it to, or the way anyone wanted it to, for that matter. I wanted to go somewhere where we'd win some hockey games. My last year, I wanted to go to a solidified program and be able to help them win hockey games."

North Dakota enjoyed a 24-14-1 record overall and a 17-6-1 league record. DeRidder will have to compete to get playing time with Zach Driscoll, who enjoyed a 2.17 goals against average and a .919 save percentage while posting a 15-4-1 record.

"It's one hell of a team," DeRidder said in an interview. "UND has always been known for that. It's always a top-tier program. I'm planning on continuing that next year."

Detroit's Don Wert was out on this play at the plate, but he was the hero for Detroit in a 2-1 win against the Athletics during an early season game against the Athletics in 1968.

1968

Continued from Page 12

ing pitcher Earl Wilson. Detroit was stymied to just one run among three pitchers, resulting in the loss.

Minnesota came to town on May 1 and the Tigers experienced another late-inning rally to earn a victory. Tied at 2-all, Dick McAuliffe hit a one-out triple, eventually scoring on Willie Horton's sacrifice fly. The Tigers led 3-2. In the top of the ninth, the Twins put two runners on but Denny McLain improved to 3-0 with the complete-game win, getting Ted Uhlaender to pop out to end the game.

A day later, the Tigers saw themselves lose an extra-inning contest. Detroit tied the game with a solo home run by Jim Northrup in the bottom of the ninth, but the Twins got the go-ahead run in the 10th when with two out, Rod Carew doubled and Harmon Killebrew singled in Carew against relief pitcher Denis Ribant. Detroit loaded the bases with one out in the bottom of the 10th, but Freehan and Dick Traceweski each struck out against relief pitcher Al Worthington, earning the Twins the win. The Ti-

gers were 13-6 and a half-game ahead of Baltimore with California coming to Detroit.

The Tigers lost their first home series of the season against the Angels. Detroit fell out of first place in a 6-5 loss against California. Lolich was tagged for five runs in 5 1/3 innings, resulting in the loss. A day later, the Tigers lost again as Roger Repoz hit two home runs and drove in six runs for the Angels in a 7-2 loss. Baltimore (14-6) were now 1 1/2 games ahead of the Tigers (13-8). The home stand ended on May 5 during a Sunday afternoon contest. Freehan and Mickey Stanley hit home runs as Detroit handed McLain his fourth win of the season in a 5-2 victory.

The homestand was over and Detroit finished it with just a 3-4 mark, 1 1/2 games behind the Orioles. Up next was a six-game road trip, starting with (yup, you guessed it) three games with the first-place Orioles. In fact, five of the Tigers' next eight games were going to be against the Orioles. Could this be the moment that one of these two teams could jump ahead of the other? The fan bases would soon find out.

CHANGES

Continued from Page 11

each in Stripes Division action. Unfortunately, it means that those three teams won't be playing Lake Fenton for actual regular season league contests.

For softball, the league will follow a reasonably close format with one notable exception. Softball teams will play doubleheaders on both the Monday and Thursday dates, meaning each team will host a twinbill against the other five division squads resulting in a 20-game division season.

For both sports the Flint Metro League season will end with a crossover event on May 19 with the top two teams in each division facing off in a championship game format. The second-place teams will do the same straight down to the sixth-place squads.

It's possible the decision to play Monday and Thursdays instead of Monday and Wednesdays could've been due to baseball and pitching rotations. With games being played that extra day apart, pitching staffs can see their hurlers pitch with more liberal usage from Monday through Thursday. It's likely No. 1 starters will start games on Mondays and Thursday while the No. 2 starter has the second game of the Monday twinbill. Also, the format cuts the league baseball season down from 22 games on 11 dates to 15 games on 10 dates. There will be another game and date during the crossover.

"I like the idea of not having to play so many league games and being able to play other teams in the state," Fenton varsity baseball coach Shawn Lawrence said. "The idea makes sense with the new schedule, but the games should be Monday and Wednesday. That forces teams to pitch different pitchers. With the current schedule, teams could technically still pitch the same guys on Monday and Thursday."

Softball will find itself play-

When area baseball teams face off in Metro action this season, the squads will play three games against each other over two dates. Softball teams will play two twinbills over two dates during the same league.

Photo: David Troppens

ing almost as many league games as they did in the past, but now they are condensed among five other teams instead of 11 teams. Playing division foes four times in two dates over the course of four days could be interesting for rivalry contests like Fenton vs. Linden. But it leaves potential budding rivalries with Lake Fenton or Goodrich with area teams from developing as well. Softball doesn't have the pitching arm issues that baseball has, and if anything was learned from last season it was that the strongest programs in the Stars Division could compete just fine with the Stripes squads. Stripes Division squad Owosso not only won the Flint Metro League title overall, but won the D2 State Championship. Meanwhile, Linden, a Stars team, advanced to the D2 state quarterfinals before seeing their season end. A doubleheader that matters in the league standings won't happen between those two teams unless they both advance to the crossover championship game. Linden isn't scheduled to play Lake Fenton, or Holly. There is a Fenton-Lake Fenton twinbill on the schedule, but it won't impact league races.

And as the tri-county area has seen with overlapping play between the divisions, it has started renewing old rivalries among many schools that are either neighbors or close neigh-

bors. The two obvious schools are Lake Fenton and Goodrich being able to play the Fentons, Lindens and Hollys of the world. Perhaps the area's top boys basketball game of the season was Lake Fenton's overtime victory against Fenton. In football, Lake Fenton defeated Fenton for the league crossover league title. Of course, that scenario could happen in baseball or softball this spring as well.

"This new league format seems so strange and odd," Fenton varsity softball coach Ken Brant said. "I don't care for it personally."

Regardless of opinions, area fans will get a chance to see the new format in action next week when Lake Fenton hosts Corunna in baseball and softball doubleheaders on Monday and travel to Corunna for a single baseball game and a doubleheader softball contest on April 14. In Stripes action, Linden travels to Holly for doubleheaders in baseball and softball on Monday and Holly heads to Linden for the other date on April 14 — baseball for one game and softball for a doubleheader. Meanwhile, Fenton hosts Swartz Creek in both sports for a DH on Monday and then goes to Swartz Creek on April 14, following the same format as the other Metro squads. Of course, this is all weather pending.

Obituaries

Helen Scarberry 1933 – 2022

Helen Scarberry - age 89, of Fenton, died Friday, April 1, 2022. Funeral services will be held 11 AM Friday April 8, 2022 at Sharp Funeral Homes, Fenton Chapel, 1000 Silver Lake Rd. Fenton. (The funeral service will be live streamed and viewed at Helen's page at www.sharpfuneralhomes.com.) Interment in Tyrone Memory Gardens, Fenton. Visitation will be held 2 - 8 PM Thursday, April 7, and 10 - 11 AM Friday, April 8. Helen was born January 13, 1933 in Virginia the daughter of Dewey and Sarah (Estep) Conn. She married Clifford Scarberry on February 28, 1953. Helen had a strong love for family. She was an amazing cook and loved to feed people. Everyone was always welcome in her home at her table. She had a strong Faith in the Lord.

Surviving are her husband of 69 years, Clifford; six children, Darrell Scarberry of Fenton, David (Donna) Scarberry of McKee, KY, Cliff (Margaret) Scarberry of Fenton,

Ken (Debbie) Scarberry of Grand Blanc, Tim (Tristan) Scarberry of Fenton; Dana (Brad) Jones of Fenton; grandchildren, Lindsay, Leslie, Jamie, Ashley, Sarah, Baylee, Logan, Hannah, and Sophie; great-grandchildren, Sara, Sydney, Hailey, and Avery; brother, Jay; and sister, Loretta; several nieces and nephews. She was preceded in death by her infant daughter, Carol; parents; sisters, Polly, Nancy, and Irene; and brother, Frank. Tributes may be shared at www.sharpfuneralhomes.com.

I'm glad we woke up when we did.

I'm glad we didn't go to bed late last night.

THE HOT AIR BALLOONISTS WERE ABLE TO SEE THE SUN COME UP BECAUSE THEY WERE ---

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

Horoscopes

For the week of April 4, 2022

ARIES

Mar 21/Apr 20

Enhanced feelings of determination motivate you this week, Aries. You will be able to wrap up projects that you've thus far been unable to finish. You will be able to handle anything.

TAURUS

Apr 21/May 21

The end of the tunnel isn't as far away as it may seem right now, Taurus. Take one step at a time and you will find out that the culmination of something challenging is near.

GEMINI

May 22/June 21

Think about making some plans for a getaway or a short vacation this week, Gemini. You likely can use the break and change of scenery. Use this as an opportunity to rest and refocus.

CANCER

June 22/July 22

Cancer, try not to be too judgmental of others, especially as it pertains to a project at work. Be open-minded to other ideas and value another's perspective.

LEO

July 23/Aug 23

Leo, friends will come to you seeking advice or simply looking for a patient person to lend an ear. Give them all the time they need to share their thoughts.

VIRGO

Aug 24/Sept 22

Getting through the week shouldn't be too much of a problem for you, Libra. A second wind of energy may come your way and you will have the determination to get the job done.

LIBRA

Sept 23/Oct 23

When a project presents itself you don't want to pass on it, Libra. Do your due diligence. Now is not the time for shortcuts or to rush through anything.

SCORPIO

Oct 24/Nov 22

There's a good chance you will feel positive and upbeat for most of the week, Scorpio. Make the most of this good mood and catch up with friends and loved ones.

SAGITTARIUS

Nov 23/Dec 21

Sagittarius, don't underestimate your ability to be resourceful when a problem lands in your lap. You will find the answers to get through it.

CAPRICORN

Dec 22/Jan 20

Try not to let one obstacle get you down, Capricorn. You will have plenty of other opportunities to redeem yourself and find success in the task at hand.

AQUARIUS

Jan 21/Feb 18

Aquarius, it can be easy to fall into a rut, but by daring to be different you may gain a new perspective on things you never imagined. Try a new style and embrace the change.

PISCES

Feb 19/Mar 20

Resist feeling self-conscious about some of your choices, Pisces. If you believe in yourself, others will start to flock to your side.
